

# 32LK540BPUA

HDR Smart LED HD 720p TV

32"

\* Class size: See below for details.

**LED**  
**HD 720P**  
**Active HDR**  
**Dynamic Color**  
**HDMI**

## DESCRIPTION

The new LK540 uses webOS to queue up movies and more from top providers and navigate Smart TV features with an intuitive interface, or control it with simple voice commands using friendly, versatile Google Home and Amazon Alexa devices.\* Enjoy a crisp, clear picture in 720p high definition that's rich with detail. High dynamic range enhances color and contrast as well, delivering a more striking image than ordinary HD TVs. (HDR10 and HLG formats supported.)

\*Please check with content providers for required bandwidth to stream videos. Smart service on product is subject to change. Some apps that appear on the screen image may not be pre-installed; internet connection is required for download. Google Home and Amazon Alexa devices sold separately. Active HDR supports HDR10/HLG only: HDR10 via HDMI/streaming/USB and HLG via streaming/USB

## KEY FEATURES

### LED

An array of light-emitting diodes (LEDs) across this LG TV brings exceptional brightness to the beautiful high-definition picture. LEDs are also energy-efficient while enabling a slimmer, more stylish cabinet design.

### HD 720P

Get a crisp, clear picture in 720p high definition that's rich with detail.

### Active HDR

See high definition in a way not previously possible. High dynamic range is now available on high-definition televisions with LG's advanced tone mapping technology that provides scene-by-scene optimization for a more striking HD image. (HDR10 and HLG formats supported.)

\*Active HDR supports only HDR10/HLG. HDR10 via HDMI/Streaming/USB and HLG via Streaming/USB.

### Dynamic Color

Greener grass. Bluer skies. Richer sunsets and skin tones. Colors all look better than ever thanks to this special process that enhances the entire wheel — red, green, blue, cyan, magenta and yellow — as well as their hue and luminance.

### HDMI

For high-performance viewing, the integrated HDMI (high-definition multimedia interface) ports let TV watchers connect audio and video devices quickly and easily using a single cable.

# LG LED TV
