

LED Nightlight with Dual USB Charging Ports

.....

A versatile nightlight that doubles up as a charging port
with two USB ports available.

Overview:

Aluratek's LED Nightlight with Dual USB Charging Ports makes the perfect night light and also doubles up as a USB charging port with two ports available. Whether it's for your home or travel, don't worry about bringing your phone charger because this takes care just that. Simply plug this in to a power outlet, and plug in any USB cable to start the charging process with your devices. From iPads, iPhones, Samsungs, to other devices, you can charge them simultaneously without waiting for the other.

Our plug in night light serves great as a kids night light, a bathroom toilet night light, and everything else in between. It has a simple yet sleek design so it'll go with any room decor.

Features:

- Features a bright white LED night light to illuminate any dark room and is easy to turn on and off with a switch of a button
- Includes two USB charging ports so you can charge you two devices simultaneously
- Power plug can be collapsed easily so you can take it on the go
- This simple design is perfect because it'll fit into any home and room decor

Bright White LED Nightlight

Featuring a powerful night light that will illuminate any room, this is perfect for your home, a dorm, your kids' room, or for travel. This light gives off the perfect bright white LED light so you'll never be stumbling in the dark again. Just turn the switch on when you want to light up your room.

Dual USB Ports

Charge up not one, but two devices with the dual USB ports feature. Charge two devices simultaneously and don't worry about using up too much wall space with additional chargers.

Portable For On-The-Go

Perfect for on the go travel - simply collapse the power plug and tuck it in your luggage or backpack for easy access. Once you're ready to use it, simply pop it back out and plug it in to a power outlet.
