SABERAY

SABERAY

- **Exclusive ENERMAX LED LIGHTING Technology**

- **3x ENERMAX T.B. RGB Fans Included**

- **Massive Cooling Potential with 4x Designated Places for Flexible Liquid Cooler Installation**

- **Defaulted Acrylic Front Panel and Additional Meshed Front Panel**

SABERAY, a high-end RGB-sync gaming chassis, applies ENERMAX LED LIGHTING technology to deliver incredibly bright and even RGB lighting. The combination of RGB strips and 3x pre-installed ENERMAX T.B. RGB fans can offer up to 1280x RGB lighting effects. Furthermore, this RGB gaming castle supports 4x designated locations for liquid coolers or 9x locations for fans, giving enthusiasts and hardcore gamers great flexibility in liquid cooling configuration.
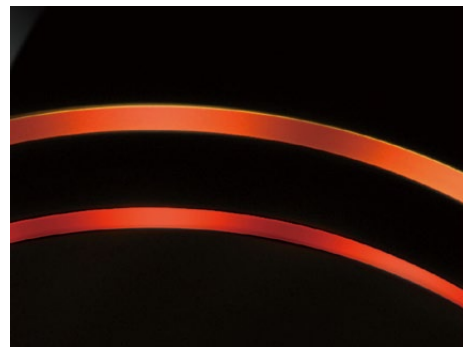

Features

- **ENERMAX LED LIGHTING Technology**
  ENERMAX LED LIGHTING Technology + Innovative Nano Diffusant provide consistent and uniform luminance.

ENERMAX SABERAY
Incredibly bright and even lighting

Others
Uneven lighting with visible spots

- **3x pre-installed ENERMAX T.B. RGB fans with Patented Twister Bearing technology**
  With the patented Twister Bearing technology, the T.B. RGB fan provides beautiful lighting effects and offers superior silent performance.
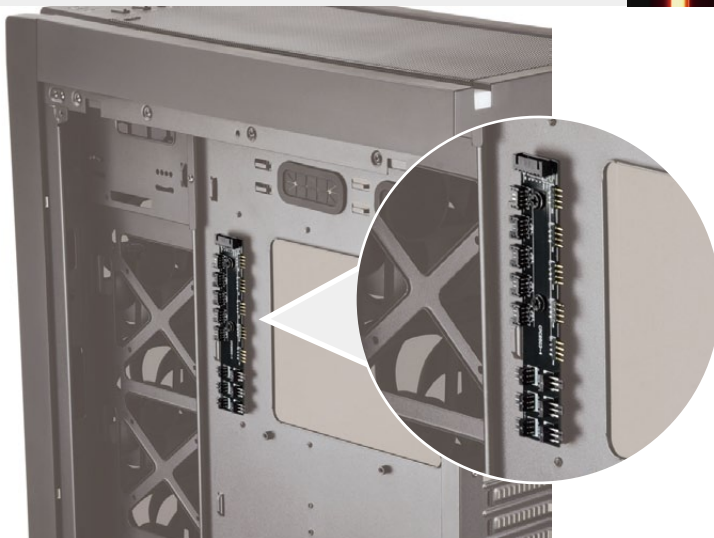

Support RGB-sync with motherboards

Certified by ASRock, ASUS, GIGABYTE and MSI for RGB synchronization.

Amazing 1280x lighting effects

Saberay provides users with 5x modes and 256x colors to create the preferred lighting effects via the built-in controller.
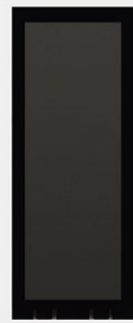

Integrated control hub

For those who do not use the RGB-sync motherboards, the integrated control hub allows users to keep 5x RGB devices' lighting in sync; furthermore, the hub can also control the speed of the 6x fans together.

Unique quick-release design

The tool-less panels facilitate the system installation and maintenance.

Acrylic panel
(Default)

Meshed panel

Designed with both aesthetics and ventilation in mind

Two premium tool-less front panels included.
- Glossy, full-view acrylic panel displays vivid lighting effects.
- Meshed panel provides better ventilation.

4mm panoramic tempered glass window

The 4mm panoramic tempered glass window allows you to show off your rigs.

Anti-dust rubber plugs

Solid structure with ample space

Constructed of 0.8 mm sturdy steel, SABERAY offers spacious interior design for large, high-end components.

◤ Extensive cooling potential

Flexible cooling system configuration supports 4x designated locations for liquid cooler installation.

Liquid Cooler Compatibility Chart					
Radiator size (mm)	360	280	240	140	120
Front	●		●		●
Top	●	●	●	●	●
Rear				●	●
Side			●		●

◤ Advanced ventilation system to support a maximum of up to 9x fans

Rear (exhaust)
1x 140/120mm fan
(1x 140mm fan included)

Top (exhaust)
3x 120mm/2x 140mm fan
or
360/280/240mm liquid cooler supported

Side (exhaust)
2x 120mm fan
or
240mm liquid cooler supported

Front (intake)
3x 120mm fan
or
360/240mm liquid cooler supported
(3x 120mm T.B. RGB fans included)

◤ Flexible system configuration

Supports up to 1x 5.25'' ODD, 2x 3.5" HDD, and 6x 2.5 SSD/HDD (2x Converted from 3.5" tray) to satisfy your storage needs.

5.25'' ODD

2.5" HDD/SSD

2.5" HDD/SSD

2.5" HDD/SSD

2.5" HDD/SSD

2x 3.5''/2.5" HDD/SSD trays

◤ Support long VGA cards and tall CPU cooler

CPU Heatsink
Max. Height: 175mm
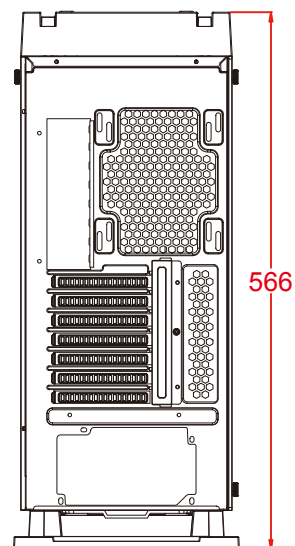

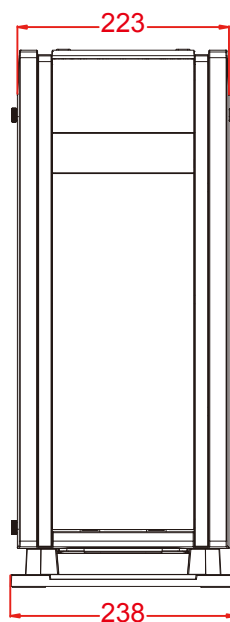

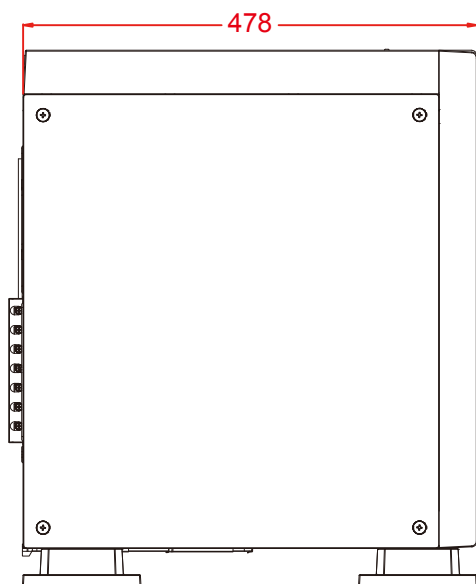

Graphic Card
Max. Length: 420mm

◤ PSU-Tunnel design (aka PSU shroud)
The design minimizes the cable clutter, which makes the system clean and neat, and helps improve the air circulation.
