AMR2ACWS

Sit-Stand Spring Arm Desk Mount Computer Workstation Combo System

This Sit-Stand Desk Mount System provides an ergonomic solution allowing the user to change the way they work throughout the day. The Spring Arm provides the user the ability to move the workstation from side to side and up and down. The workstation module provides a keyboard tray with a built in mouse pad which can be slid into place on either side of the keyboard providing for mouse operation on the left or right side. There are 2 built in holders, one for a scanner and the other for the mouse allowing for organization of the workspace. The 2 flat panel display mounts can be individually rotated, raised and lowered without changing the keyboard position. This allows for a wider range of motion to accommodate different work requirements.

Highlights of the AMR2ACWS premium features:

1. Provide up to 436mm (17.27") of smooth vertical movement.
2. Torque Adjust for both the Spring arm and Display weight.
3. Free swing, tilt and Pivot handling on display.
4. Designed for maximum utilization with desk corners and rear mounting providing more space.

Specifications

Dimensions(W*H*D):	940*960*896 mm 37" x 37.8" x 35.28"		Screw Type:	M4
Material:	Steel/Aluminum/Plastic			
Hinge Module			**Display Support**	
Swivel(Hinge):	Max. +/-90°		Mounting Pattern	100x100/75x75mm
Tilt(Hinge):	0°-30°		Display Type	Dual Monitor
Tilt(Keyboard):	0°-90°		Support Flat Panel Size:	≤24"
Rotate(Pivot):	360°		Support Weight (Arm Total)	2-6kg (4.4-13.2lbs)
User Torque Adjust:	Available		Support Weight (Keyboard)	2.5kg (5.5lbs)
Height Adjust				
Height Adjustment Range (Display/Arm):	124mm(4.88") / 436mm(17.27")		Tension Torque Adjust	Yes
Tilt(Arm):	-30° - +65°		Max.Working Space	449*207mm for keyboard Tray (17.68" x 8.15")
			Extended Arm Provided	1
Warranty and Support			Cable Management	Yes
Warranty: 3 Years				
Support: Free technical support (phone/email)
