Power Extension Cord, Locking C19 to C20 - Heavy-Duty, 20A, 100-250V, 12 AWG, 6 ft. (1.83 m), Black

MODEL NUMBER: **P036-L06**

C20 to C19 cord powers a server, router, switch, blade server enclosure or other network device that requires a heavy-gauge cable.

Features

C20 to C19 Power Cable for Network Devices That Require a Heavy-Gauge Connection This rugged cord features 12 AWG wire suitable for high power connections, making it a reliable solution for large server applications that require a higher-rated, heavier-gauge cable. It can be used to connect a server, router, switch, blade server enclosure or other network device to a UPS system or PDU. It is also an ideal replacement or upgrade from the standard power cord provided by the device's manufacturer. The 6-ft. (1.83 m) length allows you flexibility in placing equipment with respect to the power outlet.

Locking C19 Connector Helps Prevent Accidental Disconnection and Expensive Downtime Having a cable come loose accidentally can mean the loss of power and costly downtime. The locking C19 connector helps you avoid such danger, protecting critical equipment by maintaining a secure link without failure. The locking cable is also invaluable when moving equipment in a rack or removing equipment from tight areas, ensuring the power cord always stays connected.

Lifetime Warranty The P036-L06 is backed by a lifetime warranty, ensuring reliability and performance.

Highlights

- Recommended for powering network devices that require heavy-gauge cabling
- 6-ft. (1.83 m) length allows flexibility in placing devices in relationship to AC outlet
