VisionTek Part# 901200 UPC 7 84090 03844 9

- Plug and Play, no external power adapter required (Additional USB power cable provided to enable Ethernet port)
- Integrated connection cable
- Single Display resolution up to 2560x1600, Dual Display resolution up to 2048 x 1152 @ 60 Hz.
- Expand the connectivity of your laptop, ideal for dynamic on-site production
- Take full advantage of two additional monitors
- Compatible with Ultrabook, MacBook, Microsoft Surface Pro, and other Windows based tablets
- The single USB connection makes setup completely hassle-free
- Supports Primary / Extended / Mirrored video modes
- Detachable mini hub with Integrated SD and micro SD Card Readers*

The VisionTek VT100 Portable dock allows you to easily connect your Windows or Mac OS laptop to dual displays and the most popular connectivity ports through a single USB connection. This high-quality dock is a single-cable solution that enables you to take full advantage of up to two monitors and Full **HD technology, even if it isn't natively supported by your computer's video** card. Featuring Plug & Play installation (without the need for drivers or additional downloads), you can easily turn your laptop into a complete workstation by adding peripherals such as a full-sized keyboard, mouse, external hard drives, printers, webcams and projectors.

This single-cable docking station is ideal for:

- Expanding work displays
- Connecting Projectors or TVs
- Connecting additional displays to clone for education

With its compact size, you can easily connect and expand your laptop functionality anywhere you go.

Built in 10/100/1000BASE-T Gigabit Ethernet RJ45 Port.

* Detachable mini hub with integrated SD and micro SD card readers (utilizes second USB port for connection)
