The VisionTek USB-C to USB-C 1 meter (3 foot) cable supports the most popular features of USB-C.

· Connect it to your power adapter to deliver up to 100W of power to your phone, laptop or tablet.

· Connect your dock or other device to your system to transfer data at speeds up to 10 Gbps with power delivery (if supported by the device and host).

· Connect it to your monitor and get crisp 3840 x 2160 @ 60Hz (4K) on systems that support DisplayPort over USB Type-C.

Thunderbolt 3 systems support all of these features. USB 3.1 Gen 2 supports Data features at 10 Gbps. USB 3.1 Gen 1 supports data at 5 Gbps. Display support will vary based on laptop, desktop and mobile features. Many USB-C laptops feature DisplayPort over USB Type-C. Please consult your manufacturers specifications for feature compatibility.
