

RELIABLE, ALL-ROUND BUSINESS PERFORMER

Lenovo

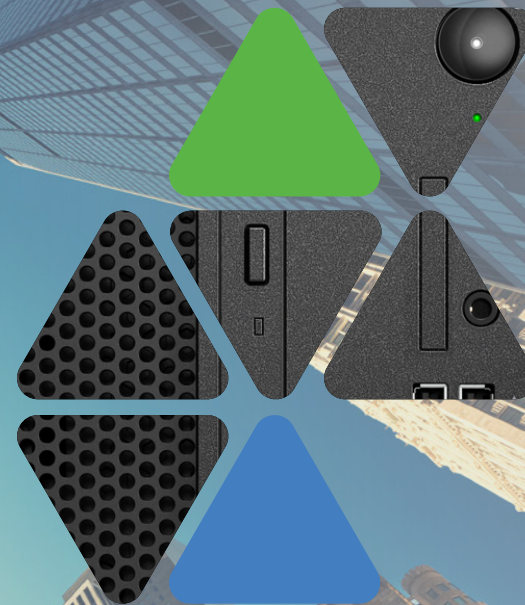

The ThinkCentre M720e SFF is built for businesses. As a machine that can perform reliably and carry out even strenuous office tasks day in and out, it is the perfect companion to any office. The Think-branded desktop has a sturdy build and an industrial design that complements modern office spaces.

Powered by up to 9th Generation Intel® processors and backed up by powerful DDR4 memory, the compact, yet powerful Small Form Factor (SFF) device occupies only 7.4L of space on the table.

ThinkCentre M720e

Lenovo

ThinkCentre[®] M720e

Powerful Performance: all M720e specs point to it being a device made for performance. Up to 9th Generation Intel[®] Core[™] i7 processor, backed by a mammoth up to 32GB of memory means that this PC can easily handle office tasks, be it multitasking or creatives, with its AMD Radeon[™] 520 2GB graphics.

Practical Connectivity: connectivity is one of the most critical facets of a business desktop, and this device comes with a plethora of connectivity options. Spread out between the front and rear of the device; there are eight full-sized USB 2.0 and 3.0 ports built in. A DisplayPort, LAN, and two combo audio ports all make sure the user is never left wanting.

Prudent Security: security is something that is often overlooked by small and medium-sized businesses. The M720e, however, being a Think device has access to industry-leading security services offered by Lenovo. The SFF also has a built-in hardware-based dTPM 2.0 module that encrypts user data and secures sensitive information.

Precise Build: made of top-notch materials and components, this SFF is built to last. Ensuring it has a long service life so that business investments reap proportionate returns.

IT Decision Makers Benefits

Extendable

Multiple monitors are one way to boost productivity in the workplace. The ThinkCentre M720e, although small, is built to handle two monitor outputs at once without any specialized software or technical setup.

Ready to deploy

Designed to go from box to table and straight to work, it is a desktop solution that is perfect for businesses that need a quick upgrade, or for new businesses to get started. Perfect for workspaces which need a device that can hit the ground running.

Sustainable

Similar to all products that bear the 'Think' branding, the M720e is a machine built for the stresses of the office. The device also comes with five sustainability and eco certifications, including Energy Star[®], EPEAT[™], and RoHS—making sure IT investments are environmentally responsible.

Economical

The desktop PC packs in serious performance figures in a tight package only 7.4L in volume, offering incredible space savings and reducing clutter.

Optional Accessories

ThinkVision T24i

(PN: 61CEMAR2AU)

Full-HD, 24-inch display, with an ergonomic design that adapts to any work environment.

Lenovo Professional Wireless Keyboard and Mouse Combo

(PN: 4X30H56796)

A wireless keyboard and mouse combo that offers exceptional input and connects through one receiver.

ThinkPad Secure USB Hard Drive

(PN: 0A65621)

A slim, lightweight, and self-powered hard drive, it is protected by one of the strongest encryption packages available.

RECOMMENDED SERVICES

Lenovo offers a comprehensive portfolio of services to support and protect your ThinkCentre investment—so you can focus on your work, not your IT.

Premier Support

Provides direct access to skilled and experienced Lenovo technicians offering comprehensive hardware and software support. It gives you a consistent point of contact within Lenovo to ensure that your case resolution is professionally managed from start to finish.

Accidental Damage Protection (ADP)

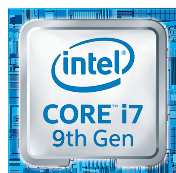

Prevents the hassles of unexpected repair costs. Provides coverage for non-warranted damage incurred under normal operating conditions, such as minor spills, drops, or damage to the integrated screen.

Warranty Extension (1 year base, up to 3 years total)

This fixed-term, fixed-cost service helps you accurately budget for PC expenses, protect your valuable investment, and lower the cost of ownership over time.

*Optional

Depending on many factors such as the processing capability of peripheral devices, file attributes, and other factors related to system configuration and operating environments, the actual transfer rate using the various USB connectors on this device will vary and is typically slower than the data rates as defined by the respective USB specifications: - 5 Gbit/s for USB 3.1 Gen1; 10 Gbit/s for USB 3.1 Gen2 & 20 Gbit/s for USB 3.2.
