

Toolless Trumpet Drop-Out Kit for Fiber Routing System, 240 mm (10 in.)

MODEL NUMBER: SRFC10DROP

Raceway trumpet spillout narrows your fiber optic cables to a standard 2 in. bend radius when exiting a channel or vertical T.

Features

High-Impact PVC Drop-Out Helps You Create Custom Fiber Cable Routing Schemes

The SmartRack® SRFC10DROP limits the bend radius of your fiber optic cabling to two inches (50 mm) as it exits from a channel, horizontal T fitting or vertical T. A proper two-inch bend radius protects against signal loss and damage to the cables. Made from durable, lightweight PVC material, this trumpet drop-out connects using the included hardware to help keep your cable bundles neat and organized. Screws and nuts tighten by hand with no tools required to complete a professional, finished look in your data center, network closet or industrial space.

Highlights

- Allows you flexibility in creating your custom fiber optic cable routing system
- Constructed from durable but lightweight PVC plastic
- Easy to install with your fiber routing system with no tools needed

Applications

- Create a fiber routing system along the wall or ceiling of your data center or network closet or across the tops of the rack enclosures

System Requirements

Requires a 10 in. or 240 mm wide section from Tripp Lite's Fiber Routing System

Package Includes

- Trumpet dropout, 240 mm
- (4) T-shaped screws
- (4) Twist nuts
- Installation guide

Specifications

OVERVIEW	
UPC Code	037332240910
