

HP Engage One Pro Bar Code Scanner (9YH49AA)

Overview

Streamlined checkout scanning for a cleaner counter experience

This integrated bar code scanner streamlines your checkout area, while offering placement options, acceptance of various barcodes and coupons, and enhanced features for an easier, more accessible checkout experience.

Out of the way even when you need it

Enjoy a more configurable, clutter-free scanning space with our new integrated design. This low-profile bar code scanner inserts into the left, right, or bottom of the HP Engage One Pro, sitting flush with the screen for a slick seamless look.

Full service or self-serve scanning

Enable both employees and customers alike to scan items with ease. The unit reads bar codes when they're placed within 1" to 12" inches from the scanner.

Ready for the digital age

Quickly scan mobile wallets and digital coupons from customer mobile devices or printed 1D and 2D barcodes. Plus validate customer identity with passport OCR.

Adjustable scan light

Minimize visual fatigue for employees and customers by adjusting the scan light for your ambient lighting conditions—lower the brightness in darker environments or increase the intensity when needed in brighter environments.
