

The VisionTek USB-C to USB-C 1 meter (3 foot) cable supports the most popular features of USB-C.

- Connect it to your power adapter to deliver up to 100W of power to your phone or tablet or laptop.
- Connect your dock or other device to your system to transfer data at speeds up to 480 Mbps with power delivery (if supported by the device and host).
- USB 2.0 Type-C differential wires allow for charging and data transfer simultaneously.

Thunderbolt 3 systems support all of these features. USB 2.0 supports data features at 480 Mbps. Please consult your manufacturers specifications for feature compatibility.

Our USB-C cables are compatible with all systems with Type-C, including compatibility with Thunderbolt 3 USB Type-C.
