Left or right-side installation

Removable mounting tray with hook-on installation & quick release/attachment mechanism

0.2" padlock hole for added security

Generous mounting area 16.5 x 10.7" with universal mounting hole pattern

Security screws

10 year warranty

Media storage sliding panel

Important:

The media storage panel's depth when attached to the wall is 0.7".
When choosing a compatible display bracket and mounting arrangement, consider the depth of the equipment attached to the sliding panel to allow for free sliding movement.
The total **minimum distance from the wall to the back of the display** is a sum of the following dimensions:

$$B \text{ (minimum)} = A + C + D$$

A: depth of the tallest device attached to the sliding panel

C: depth of the sliding panel (0.7")

D: clearance of 0.1" recommended to allow for variances
