- 2 Inline volume control
- 3 Ergonomically shaped ear cushions
- 4 Over-ear design
- 5 Durable ABS plastic structure
- 6 Internally angled drivers
- 7 "Memory Flex" microphone boom

### ABOUT

ThinkWrite Technologies' "comfort-first" standards and unique ear cup swivel technology provide sustained satisfaction in comfortability and sound. The TW220 DURO USB Headset features ergonomically-designed soft contour 100%-contact ear cushions to minimize external noise infiltration and improve sonic quality—keeping ears protected from the strain of long-listening periods. Fitted with a flip-down omni directional microphone boom equipped with sensitive omni capsule technology, the microphone is optimally positioned for voice recording—out of chewing range— and capturing diverse vocal qualities and unique inflections, without distracting background noise. Utilizing 40mm drivers for unmatched audio quality, easy to use inline volume control, and entirely over-the-ear cushions providing unparalleled comfort, the DURO is the ideal over-ear USB headset for school, office, and everyday usage.
