USB-C Portable Dock

Key Features:
- Universal Compatibility for USB-C Systems
- Supports up to 2 external displays via HDMI and DisplayPort
- 2x SuperSpeed USB 3.0 Ports
- 1x USB-C (5Gbps)
- 1x RJ-45 Ethernet (10/100/1000 Mbps)
- Power Passthrough from USB-C charger (not included)
- Supports up to 100W Power Passthrough

Increase your productivity with our plug and play power passthrough docking station, the VisionTek VT400 USB-C Docking Station for Windows™ and Mac™ laptop systems. With a single USB-C connection, you can connect up to two external displays, transfer files and data at up to 5Gbps speeds and charge mobile devices.

- Universally Compatible USB-C – Windows™ or Mac™, the VT400 is compatible through the single, included USB-C 4 inch cable, making this the ideal docking station for mixed system environments.

- USB-C Pass-Through Power – Plug your laptop's USB-C power adapter into the dock's USB-C Power-In port on the side to provide passthrough power, up to 100W, depending on system and charger being used. The VT400 can also be used without the power adapter to charge your mobile devices from the laptop's battery.

- Connect Up to Two External Displays in HD – The VT400 has two video ports to provide video connection options that suit your needs using MST technology. Single display supports a maximum resolution of 4K @ 60 Hz, Dual displays support 4K @ 30Hz with host systems that support HBR 3 and MST. (Windows™ systems support up to two external displays. Mac™ systems support one extended and one cloned/mirrored external display.)

- Expanded Selection of Ports – Flexibility and portability are the goals with the VT400, by offering some of the most commonly needed ports in one dock using the included 4 inch USB-C cable.

  ° 1x HDMI and 1x DP port let's you connect external displays to increase connectivity options.

  ° 2x USB 3.0 ports let you connect external storage, full size keyboard and mouse, or mobile devices.

  ° 3x USB-C ports total (1x USB-C User availible 5Gbps, 1x USB-C for optional user supplied Power Delivery, 1x USB-C for connecting to host system).

  ° Removable 4 inch USB-C cable to connect to your sytem USB-C port.

  ° 1x RJ 45 Ethernet Port to connect to wired networks at speeds of 10/100/1000 Mbps.
