  - PXE Boot

Work life has shifted from long commutes and occasional calls to the home office.

Whether it's hybrid work or a full-time remote office, working professionals now need the right equipment to be efficient at home. The VT4510 has the power and capability to transform laptops to a proper tech-friendly home office workstation. With one USB-C connection you can connect HD webcams, plug in USB drives, expand to multiple displays, and connect your headphones and mic. Stop worrying about digging around for the right cables and use a dock that has everything you need in one place. One cable. One dock. endless solutions.

- Universal Compatibility – Windows™, Mac™ or Chrome™ the VT4510 is compatible with USB 3.0, USB-C and Thunderbolt™ 3 systems, making this an ideal docking station for mixed system environments. The VT4500 comes with both USB Type-A to C and USB Type-C to C cables for ease of compatibility and setup.
- Connect Two External Displays – Increase productivity by expanding your workspace with up to two additional displays. DP 1.2 supports resolutions up to 4096 x 2160 @60Hz. Includes display support for HBR2(5.4GHz) that is backwards compatible with HBR(2.7GHz). (Single 5K DP++, up to 5120 x 2880 @60Hz.)
- Power Delivery - Charge your compatible USB-C laptop with up to 100W of Power Delivery.
- 11-in-1 Dock with 6 USB Ports – The VT4510 was designed for compatibility by including many of the most commonly needed ports in one dock.
  - 1x USB 3.1 Type-C Gen 2 port connects to your system with either of the included cables - 1 USB 3.0 Type-A to USB 3.1 Type-C and 1 USB 3.1 Type-C to USB 3.1 Type-C.
  - 2x DP and 2x HDMI ports let you connect up to two external displays to increase your system workspace. Up to 4 Displays can be supported with the VT70 (sold separately) plugged into USB ports of the dock.
  - 4x USB 3.0 ports let you connect external storage, full size keyboard and mouse, or mobile devices while supporting data transfer rates of up to 5Gbps. Front USB port supports BC1.2 for fast charging of mobile devices.
  - 2x USB 3.1 Type-C Gen 1 ports for connecting external storage or mobile devices supporting transfer rates of up to 5Gbps.
  - 1x 3.5mm Stereo Audio Line-Out port for headphones and 3.5mm Line-In port for a microphone, allowing for video conference communication and music listening.
  - 1x RJ45 Ethernet with 10/100/1000 Mbps support keeps you wired to the internet, avoiding Wi-Fi connection issues or security concerns.
