Features

6-Outlet Surge Protector Safeguards Your Sensitive Electronics
Ideal for your home or office workstation or travel use, this Safe-IT™ surge protector features a surge protection rating of 1080 joules to defend your sensitive electronic components against even the strongest power surges and spikes. Because residential power outlets have three wires—hot line (H), neutral (N) and ground (G)—the TLP68UBAM protects all three, covering the two protection modes: full normal mode (H-N) and common mode (N-G/H-G).

NEMA 5-15R Outlets Accept a Wide Range of Electronic Devices
Plug your computer, printer, wireless router, desk lamp or other home/office electronics into six NEMA 5-15R outlets to protect them against dangerous surges, spikes and line noise. Two outlets are spaced apart to accept bulky transformers or large plugs without blocking adjacent outlets.

Retractable USB Charger Offers Easy Access to Mobile Devices
The USB charger with retractable 4.5-foot (1.4-meter) cord clamps to the edge of your desk or work surface for convenient access to four USB-A ports, while the AC outlets remain out of your way. The USB ports share 3.4A for charging your smartphone, tablet and other USB mobile devices.

Filtering EMI/RFI Line Noise Helps Your Equipment Perform Better
This surge protector filters out disruptive electromagnetic and radio frequency interference that can inflict hardware damage or data loss. This EMI/RFI filtering also helps your connected components perform better and last longer.

Antimicrobial Protection Helps Provide a Safer, Cleaner and Healthier Work Environment
The Safe-IT TLP68UBAM features antimicrobial protection that helps resist the growth of bacteria, viruses, fungi, mold and mildew.

Premium Safety Features Protect Your Valuable Equipment
The on/off switch provides one-touch control over connected equipment. Automatic shutoff permanently cuts power to outlets if protection circuit is incapacitated, preventing equipment damage and indicating replacement is required. A green LED confirms your connected equipment is protected.
