- Kensington™ Security Lock Slot
- Connects via USB-A or USB-C to host
- Enterprise Features
  - ° Wake on LAN
  - ° MAC Address Pass-Through
  - ° PXE Boot

IT'S TIME TO CHA

Why settle for yo

Upgrade your sim
ports with a dock providing better support and faster charging with 100W Power Delivery.
DisplayLink technology ensures compatibility across a variety of systems.
Work life has shifted from long commutes and occasional calls to the home office.
Whether it's hybrid work or a full-time remote office, working professionals now need the right equipment to be efficient at home.

The VT8000 has the power and capability to transform laptops to a proper tech-friendly home office workstation. With one USB-C connection you can connect HD webcams, plug in USB drives, expand to up to four displays, and connect your headphones and mic. Stop worrying about digging around for the right cables and use a dock that has everything you need in one place. One cable. One dock. endless solutions.

- Universal Compatibility – Windows™, Mac™ or Chrome™ the VT8000 is compatible with USB 3.0, USB-C, Thunderbolt™ 3 and Thunderbolt™ 4 systems, making this an ideal docking station for mixed system environments. The VT8000 comes with both USB Type-A to C and USB Type-C to C cables for ease of compatibility and setup.
- Connect Four External Displays – 4 HDMI and 4 DisplayPort ports allow for native connections to most monitor types. Each display supports 4K @ 60Hz resolutions.
- Power Delivery - Charge your compatible USB-C laptop with up to 100W of Power Delivery.
- 3x USB 3.0 Ports (2x 5Gbps, 1x 10Gbps w/ BC 1.2)
- 2x USB-C Ports (1x 5Gbps, 1x 10Gbps w/ BC 1.2) to connect all your USB Devices
- 1x RJ45 Ethernet with 10/100/1000 Mbps keeps you wired to the internet at the fastest speeds.

Connect Additional Devices
