

AE-25 Headset/Headphone

Multi-use design with functionality and features specifically developed for the early learner

Intended to improve voice and sound clarity for story listening, interactive curriculum, speech and reading assessments. The new AE-25 focuses on the audio and comfort needs of the early learner.

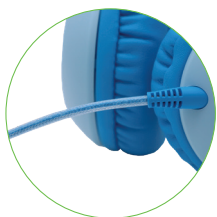

- Speakers are designed to keep sound levels below 85 dB when used with most common devices, providing a safe listening environment
- Reduce tampering and damage of microphone when not in use by clicking it into headband clip *SideKick™*
- Includes travel pouch for convenient on-the-go storage

SideKick™,
AVID's exclusive microphone management system
