

HYDRA2A

Dual Monitor Mount with Articulating Arm [Arctic Edition]

Amer Mounts' HYDRA2A [Arctic Edition] dual monitor spring-assisted monitor arms features slim arms and outstanding flexibility. The HYDRA2A premium aluminum monitor arms combines great look and smooth movement resulting in a better work experience. Internal spring mechanism provides safe and secure movements.

This monitor arm mount is ideal for applications requiring frequent display adjustments, including financial analysis and creative work. A quick-release VESA plate allows for effortless monitor installation and removal. A visible tension indicator assists with adjusting the arms for the correct balance. Built-in 180° rotation stop prevents interference with the wall or partitions. The cable management conceals the wires for a clutter-free appearance.

Features:

- Detachable VESA Plate Design: enables easy installation
- Built-in Spring Tension Gauge Dial (adjusted with provided tool-hex key): for perfect counter-weight adjustments
- Tension Indicator: designed to aid in quick spring tension adjustments to reduce installation time
- Integrated 180° Rotation Stop: prevents monitor arm from swinging into screens or walls when engaged.
- Built-in Cable Management: for an organized and neat workspace
