

4XEM's 2-Port USB-C to DisplayPort 4K MST Multi-Monitor Hub

4XEM Part- 4XMST10

Introducing our latest product, the 2-Port USB-C to DisplayPort 4K MST Multi-Monitor Hub! This innovative adapter is perfect for anyone who needs to connect multiple monitors to their laptop or desktop computer.

With the ability to connect up to two DisplayPort 4K monitors, this hub makes it easy to increase productivity and expand your workspace connectivity. The MST (Multi-Stream Transport) technology allows for multiple monitors to display different content simultaneously, making it ideal for gaming, programming, graphic design, and more.

The hub is incredibly easy to use. Simply connect your USB type C enabled device to the hub, and then connect your DP 4K monitors to their ports. The hub will automatically configure the monitors, and you'll be up and running in no time! And with its sleek, compact design, it's perfect for use on the go or in a home office setup.

If you're looking for a reliable and versatile multi-monitor solution, look no further than our 2-Port USB C to Display Port 4K MST Multi-Monitor Hub. Upgrade your setup and take your productivity to the next level today!

## Features:

- 2 DisplayPort port
- USB-C connector
- Supports Extended and Duplicate screen modes
- Supports 8K uncompressed video resolution (7680x4320 @ 30Hz)
- Supports 4K ultra-HD video (3840x2160 @ 120Hz)
- Supports Ultra-wide displays
- Windows 10 compatible
- Lightweight and portable design

- Applications:**
- Home theatre
  - Office
  - Business Presentations
  - Multi-screen display

## Benefits

- **Increased productivity:** With the ability to connect up to two DisplayPort 4K monitors, this hub makes it easy to expand your workspace and increase productivity. The MST technology allows for multiple monitors to display different content simultaneously, making it ideal for multitasking, video editing, programming, and more.
- **Easy to use:** The hub is incredibly easy to use. Simply connect your USB-C enabled device to the hub, and then connect your DisplayPort 4K monitors to the hub. The hub will automatically configure the monitors, and you'll be up and running in no time!
- **Versatile connectivity:** In addition to the two DisplayPort 4K ports, the hub also features two USB-A ports, allowing you to connect your favorite peripherals such as keyboards, mice, and external hard drives. This makes it a versatile solution for all your connectivity needs.
- **Compact and portable:** With its sleek, compact design, the hub is perfect for use on the go or in a home office setup. It takes up minimal desk space, and can easily be packed in a bag or briefcase for travel.
- **High-quality video and audio:** The hub supports DisplayPort 4K resolution, which delivers stunning video quality, and also supports high-quality audio playback. This ensures that your media is displayed and heard exactly as it was intended.

Warranty Information	Warranty	1 Year
Hardware	Chipset ID	Synaptics - VMM5220
	Max Uncompressed Bandwidth Industry Standards	HBR3 - 32.4Gbps/25.92Gbps DisplayPort 1.4
Connector(s)	Connector A (Source)	USB Type-C - Male
	Connector B (Display)	DisplayPort (x2) - Female
Performance	Audio Specifications	Up to 32 Channels
	Maximum Digital Resolutions	3840x2160 (4K), 60Hz, 8bpc (Uncompressed) Each Output
Software	OS Compatibility	Windows 10
Power	Power Source	Bus-Powered
	Power Consumption	10W
Physical Characteristics	Colour	Grey
	Shell Material	Aluminium
	Power Cable Length	N/A
	Attached Cable Length	5.91 in [150.0 mm]
	Product Height	0.60 in [15.3 mm]
	Product Width	2.44 in [61.9 mm]
	Product Length (Body)	2.22 in [56.5 mm]
	Product Length (Overall)	9.88 in [251 mm]
Weight of Product	2.05 oz [58 g]	
Packaging Information	Package Type	Poly-bag
	Package Height	7.76 in [197 mm]
	Package Width	5.83 in [148 mm]
	Package Length	0.64 in [16.2 mm]
	Shipping (Package) Weight	2.26 oz [64 g]
What's in the Box	Included in Package	1x 2-port DisplayPort MST Hub
Notes	System Requirements	"DisplayPort 1.2 with MST+HBR2 support from the GPU is required for independent display output. DisplayPort 1.4 support from GPU required for increased bandwidth and use of DSC."
	Notes	"Combined bandwidth of all output streams cannot exceed that of the available input bandwidth."
