

ELEVATE AIR

USB-C Open Charging Cart

16 or 32

Universal USB-C Charging
for Chromebooks, Notebooks,
or Tablets!

Efficient USB-C Charging

Powered by Quick-Sense USB-C PD Charging, devices automatically charge quickly and efficiently, with up to 65W output per port.

Stop Wiring Carts!

An AC adapter-free solution, Elevate Air saves time by removing cable management processes from your team's workflow.

Open Design

The practical, open design provides easy access to devices and the ability to see that all devices are connected for charging with a glance.

The Elevate Air USB-C Open Charging Cart provides the essential charging you need to keep devices ready for use without extra management tasks. Powered by Quick-Sense USB-C PD, there is no need to plug in and arrange messy AC adapters. Simply plug devices into the included connectors and enjoy quick and efficient charging. Unlike traditionally designed carts, the open concept provides easy visibility of devices from across the room. Environments that do not require extra security will benefit from the accessibility of the devices without worrying about keys and codes.

Emulator Adapter Cables

Remove Roadblocks to Charging in Your Classroom or Office

Universal Compatibility

Connect any device to the provided USB-C to USB-C dongle cables or get emulator cables for another port type.

Ergonomic Height

The ergonomic height of Elevate Air enables an easier reach for adults, while still being accessible for students.

Always Ready to Charge

Dongle cables lock in place, so they are right where they are needed. Plug in a device at any time to start charging.

Choose Your Configuration

| Description | Part Number* | Benefit |
|-----------------------------------|--------------|--|
| 1x 16-Port Quick-Sense USB-C Hub | MC-4016-AIR | AC adapter-free USB-C charging for up to 16 devices. Storage shelf for peripherals or accessories. |
