

PRO RACING PEDALS

DESIGNED WITH AND FOR PRO SIM RACERS.

Continued innovation and collaboration with pros and enthusiasts worldwide bring the Logitech G team to PRO Racing Pedals. With a load cell brake and a fully modular, customizable design, these racing pedals are meticulously engineered for professional-grade performance in the race.

The load cell brake with pressure detection delivers a superior driver feel and consistent racing experience, while swappable springs allow quick adjustments to the clutch and gas. A modular design makes it simple to find the perfect spacing for each driver—and makes customization a breeze.

Contactless hall effect sensors for ultimate durability

Load cell brake with pressure detection

Modular design for easy repositioning

Customizable pedals with swappable springs and elastomers
