

CHERRY STREAM PROTECT MEMBRANE

High-quality protective membrane for the much-loved STREAM keyboard

Models may vary from the image shown

With the CHERRY STREAM PROTECT MEMBRANE, millions of CHERRY STREAM KEYBOARD users can now add a customized hygienic key protection membrane to their keyboard.

Together, CHERRY STREAM keyboards and the CHERRY STREAM PROTECT MEMBRANE become CHERRY STREAM PROTECT keyboards. The keypad can be completely wiped cleaned and even disinfected, but is still very comfortable to type on.

CHERRY and ACTIVE KEY - two success stories combining proven quality and hygienic safety in perfect harmony.

The CHERRY brand stands for uncompromising reliability, durability and maximum comfort in daily use. Millions of CHERRY STREAM keyboards have proven their reliability, and not just in everyday office use. Hour after hour, day after day.

ACTIVE KEY has the highest level of expertise as a leading supplier of hygienic input devices. The specialist supplier in the CHERRY Group develops precise fitting and resistant silicone membranes for the highest hygiene standards in clinical applications.

With the STREAM PROTECT MEMBRANE from Active Key, millions of STREAM KEYBOARD users can add a customized hygienic key protection membrane to their keyboard.

With frequent and changing use, keyboards can be a reservoir for dirt and germs. On the CHERRY STREAM PROTECT KEYBOARD, dirt and microorganisms such as bacteria and viruses can be simply wiped off the flat and completely enclosed key surface.

The key membrane can be taken off the keyboard for washing and changing. The STREAM PROTECT MEMBRANE thus effectively protects people, the keyboard and the environment.

The STREAM PROTECT MEMBRANE provides hygienic protection wherever a CHERRY STREAM keyboard is already in use, for example in public administration, educational institutions, schools and universities or in shared office environments.

FUNCTION AND PERFORMANCE

- Cleanliness & hygiene: Easy to clean.
- Productive work: Unbeatable typing feel
- Sustainability: Washable, changeable membrane
- Modern design: Slim profile
- Maximum ease of use: 3 integrated status indicators, perfect slip resistance, 10 office & multimedia buttons
- Highest quality: Abrasion-resistant key labeling, Cherry SX scissor mechanism

Anwendungshinweise: - We recommend using nitrile gloves (instead of latex). This reduces the risk of allergies and avoids yellow discoloration of the product due to abrasion of the latex. - Cleaning agents based on mineral oil (e.g. petroleum spirits) must NOT be used for cleaning. - Greasy products such as hand creams or lipid replenishing balms reduce the service life of any silicone product. Regular cleaning will counteract this process.

Reinigung: - Wiping with a soft cloth or a soft brush in combination with soap and water or a commercial dishwashing detergent. - Removing the silicone membrane and separate cleaning with soap and water or a commercially available dishwashing detergent
