UH37 Series

Professional USB Headset

Discover The Perfect Balance Of Communication, Concentration And Comfort

Yealink

Certified for
Microsoft Teams

The Yealink UH37 USB Wired Headset Series, which comes in Mono and Dual two styles, is a professional USB headset with industry-leading designs and technologies for office users and remote workers who require a stable interactive voice experience.

UH37 is designed with easy communication, comfort, and convenience in mind to help all workers burst with brilliant insights and ideas.

DUAL NOISE-CANCELING MICROPHONES

SMOOTH COMMUNICATION, EXPRESS IN THE BEST WAY

With dual-microphone noise cancellation and Yealink Acoustic Shield Technology, UH37 intelligently shields the noise and only picks up speaker voices. Even in a crowded workplace, it can significantly reduce interference, allowing both sides of the call to enjoy pleasant communication.

BRILLIANT AUDIO PERFORMANCE

HEADSET ON, CONCENTRATE ON

The UH37 headset features 35mm speaker, superb stereo sound, and dynamic EQ*, giving clear sound in call mode, high fidelity in music mode. You don't miss any details, focus on the task, and burst with new ideas whether you're meeting or listening to music during work.

35mm speakers

Superb stereo sound

Wideband HD audio technology

*Automatic switch between call mode and music mode

LIGHTWEIGHT AND ERGONOMIC DESIGN

PILLOW-LIKE TOUCH, ALL-DAY COMFORT

Ultra-lightweight body, UH37 weighs about 15% less than the previous generation. From the super-fitting, soft leather-wrapped headband to the pro-skin memory foam ear cushions, Yealink has adopted a more ergonomic design, bringing zero pressure on ears even wearing it all day.

BUSYLIGHT FOR FEWER INTERRUPTIONS

NO DISTURB, WHEREVER YOU WORK

When you're on the call, UH37's busylight will turn on automatically, or you can turn it on manually. Block out outside distractions and begin working immersively whenever you want.

USER-FRIENDLY FEATURES

EASY-TO-USE, EASY-TO-WORK

UH37 allows mute in two ways: by lifting the Mic-boom or by pressing the mute button. The boom's 300-degree rotation allows for left or right ear wear. This convenient and flexible design will let you feel more at ease when communicating.
