

boom UNO

the vertical video bar for superior meetings

The Boom UNO is perfect for traveling and small huddle rooms. Its Full HD 1080p resolution and 120° wide-angle view, paired with a high-quality CMOS sensor and omnidirectional microphone, deliver sharp video and clear audio. Multi-codec support, dynamic noise reduction, and USB 2.0 Plug & Play ensure easy setup and optimal performance in any environment.

Optimal for Traveling

The Boom UNO is ideal for traveling with its compact design and Full HD 1080p resolution. The 120° wide-angle view and high-quality CMOS sensor deliver clear video, while USB 2.0 Plug & Play enables quick setup. Multi-codec support and dynamic noise reduction ensure reliable performance on the go.

Ideal for Small Huddle Rooms

For small huddle rooms, the Boom UNO offers Full HD 1080p video and a 120° wide-angle view for clear coverage. Its omnidirectional microphone and Full Duplex HD audio provide excellent sound, while echo cancellation and dynamic noise reduction enhance the audio experience. Its compact size and USB 2.0 Plug & Play make setup easy and effective.

Advanced Audio and Video Technology

The Boom UNO combines a high-quality CMOS sensor with advanced audio features like an omnidirectional microphone and Full Duplex HD audio. These features ensure clear video and sound, making it well-suited for both traveling and small huddle rooms where high-quality communication is essential.

Compact and User-Friendly

With its portable design and USB 2.0 Plug & Play, the Boom UNO offers a hassle-free setup and operation. Its compact size makes it easy to carry and set up in various locations, supported by a 3-year warranty for dependable performance in diverse environments.

Specifications boom UNO

GENERAL

Product name: Boom UNO

Item number: BM03-0016 (Black) BM03-0017 (White)

Contents: UNO, USB 2.0 cable, USB extender, Quick Guide

Resolution: 1920 x 1080 @ 30fps

Focus: Auto

Field of view: : 120°

Microphone: Omnidirectional

Mic frequency: 100Hz-8000Hz

Echo cancellation: 256ms

Connectivity: USB 2.0

FEATURES:

- Full HD 1080p @ 30fps
- Wide angle: 120° field of view
- Multi codec
- Full Duplex HD audio
- Omnidirectional microphone
- High quality CMOS sensor
- Dynamic Noise Reduction (DNR)
- Echo cancellation
- Plug & Play
- USB 2.0
- 3-year warranty

Other solutions

TRAVEL

The Boom UNO is the ideal travel companion, combining portability with high performance. Its compact design and Full HD 1080p resolution deliver clear, sharp video, while the 120° wide-angle view and high-quality CMOS sensor ensure detailed coverage of any scene. Whether you're in a hotel room, co-working space, or airport lounge, the UNO adapts seamlessly to different environments. USB 2.0 Plug & Play functionality allows for quick and easy setup, so you can start your video calls without hassle. Additionally, multi-codec support and dynamic noise reduction enhance the video and audio quality, ensuring reliable performance and professional-grade communication wherever your travels take you.

WORKING FROM HOME

For remote work, the Boom UNO is an exceptional choice, providing Full HD 1080p video quality and a 120° wide-angle view that captures your entire workspace with clarity. Its high-quality CMOS sensor ensures that every detail is visible, enhancing the professionalism of your video calls. The omnidirectional microphone and Full Duplex HD audio deliver crisp, clear sound, making communication with colleagues and clients seamless. Advanced features like echo cancellation and dynamic noise reduction further improve audio quality, minimizing distractions and ensuring that your voice comes through clearly. Its compact design makes it easy to fit into any home office setup, and the USB 2.0 Plug & Play functionality allows for a quick and straightforward installation, so you can focus on your work without technical hassles.

HUDDLE ROOMS

In small huddle rooms, the Boom UNO stands out with its Full HD 1080p resolution and a 120° wide-angle view that provides extensive coverage of the room. This ensures that all participants are visible and engaged during meetings or collaborative sessions. The high-quality CMOS sensor enhances video clarity, while the omnidirectional microphone and Full Duplex HD audio ensure that every voice is heard clearly and without distortion. Advanced features such as echo cancellation and dynamic noise reduction improve the overall audio experience, reducing background noise and enhancing communication. The compact design is ideal for confined spaces, and the USB 2.0 Plug & Play functionality simplifies setup and integration with existing systems. This makes the Boom UNO a reliable and effective solution for huddle rooms, delivering professional-grade video and audio performance in a compact package.
