**GOVIDEO LAUNCHES POWERFUL NEW LINEUP OF DVD PLAYERS,
IPOD PORTABLE DVD PLAYER AND IPOD 5.1 HOME THEATER SYSTEM**

*Single and Dual-Deck DVD Players Join Stylish
Portable DVD/iPod portable DVD Players,
iPod 5.1 Home Theater System in Exciting New Lineup*

St. Louis, Missouri, January 8, 2007 - GoVideo, a premier designer and manufacturer of the consumer electronics industry's most popular dual-deck, feature-driven home and portable products and a brand division of Digital Products International. (DPI, Inc), today announced its product line-up debuting at this week's 2007 International Consumer Electronics Show (CES). The company's booth, #10436 in Las Vegas, will be filled with an exciting, newly developed, powerful line-up featuring an upconverting DVD player with HDMI output, a DVD +VCR dubbing deck, a DVD recorder, two Portable DVD models, a home music systems and an iPod 5.1 home theater system with an upconverting DVD player.

"We continue to broaden and strengthen the GoVideo line of high-value home and portable entertainment systems," said Bill Fetter, CEO of DPI, Inc. "In addition to DVD players and a dual deck, we have added two portable DVD players including an iPod docking portable DVD player and a complete iPod 5.1 channel home theater system."

DVD Players, Dual-Deck Decks and DVD Recorders

Continuing its long tradition of industry-leading, competitively priced, single and dual deck units, GoVideo offers two models of progressive-scan DVD players and one DVD recorder. The line consists of a progressive-scan DVD player model **YGD2817-HDMI** that upconverts 480p to 720p or 1080i through the HDMI output. The retail price for the unit is only \$69.99 and includes the HDMI cable. The dual-deck DVD-VCR model **YGDV2817** features progressive-scan DVD output and 6 head Hi-Fi, VCR/SVHS playback with a retail price at \$79.99. Only \$129.99, the GoVideo DVD Recorder model **YGDD3817** completes the line and features progressive-scan playback, DVD+/- R/RW record compatibility, five record modes and digital video inputs (IEEE 1394).

Portable DVD (PDVD), PDVD/iPod Combo

GoVideo is also debuting two sleek and fashionable tablet-style PDVD models that set new standards in aesthetics and performance. Model **YGPDL907** is a fold-down, tablet-style unit featuring a 9-inch LCD swivel screen display for bright, vivid images. With multi standard video playback capability, the unit includes a built-in anti-shock system to protect delicate components during rugged transportation. A Li-Poly battery ensures long operation on a single charge. The unit includes built-in stereo speakers and comes with a remote carry/car bag AC/DC adapter and ear buds, and has an introductory retail price of \$169.99

Model **YGPDL1107**, an iPod docking portable DVD player raises the bar in terms of style, versatility and performance. Loaded with today's must-have features, this fold down tablet-type unit features a "Made for iPod®" dock, DVD player and a large 11.4-inch LCD swivel screen display for bright, vivid images. Featuring multi standard video playback capability, USB connection, and memory card slot, the unit includes a dual headphone jack and a built-in anti-shock system. A Li-Poly battery ensures prolonged operation on a single charge. Retailing at only \$299.99, the unit includes built-in stereo speakers and comes with its own remote, carry/car bag, AC/DC adapter, and ear buds.

Fold down, tablet-style display	Fold down, tablet-style display
Multi format playback	Multi format playback
Anti-shock system	Anti-shock system
Remote, carry/car bag, AC/DC, ear buds	Remote, carry/car bag, AC/DC, ear buds
Black case exterior, high gloss black	Black case exterior, high gloss black

Home Music System

Underscoring its commitment to provide dealers with innovative, high-value products while increasing the breadth of line, GoVideo is also bringing the Home Music System model **YGHMD717DT** to this year's CES. This compact all-in-one home entertainment or executive system featured in stylish black with gray speaker grills, has a built-in 7-inch LCD TV display for DVD movie playback as well as CD, JPEG/MP3 playback compatibility. A built-in NTSC/ATSC TV tuner provides reception for standard and HDTV signals while the AM/FM radio lets you tune in to your favorite radio stations. A full function remote control, AV outputs, and detachable speakers complete the system. The GoVideo Home Music System is being introduced at CES for only \$199.99 retail.

iPod 5.1 Channel Home Theater System

A one-stop home entertainment system designed to fit today's lifestyles, this powerful, full-function, remote-controlled system plays all iPod models through an iPod certified dock and charges the iPod while playing music or an iPod video. Regardless of which video source selected DVD, iPod, or auxiliary input, the unit produces stunning 5.1 audio reproduction through the powerful front speakers and surround sound through wired/wireless-ready surround speakers. A powered subwoofer reinforces low-end impact and provides startling force during movie special effects.

Featuring a drawer loading 5 DVD/CD/MP3/WMA/JPEG player for versatility and convenience, the progressive-scan DVD player on the GoVideo system upconverts 480p signals to either 720p or 1080i through its HDMI output. Additional features include an AM/FM radio with PLL for tuning accuracy, a full function remote control, 4 band EQ, two AV inputs, and 1 AV S-Video output. The CES announced price for the new system is just \$299.99

About GoVideo and DPI, Inc.

GoVideo is an exclusively licensed brand company of the Digital Products International (DPI, Inc.) family of consumer electronic products. GoVideo has been a pioneer in the design and manufacture of dual-deck, video playback and recording systems. Today, this innovative company designs and manufactures single and dual-deck playback and recording devices as well as cutting-edge portable and compact home entertainment systems.

DPI, Inc was originally founded 35 years ago as Grand Prix Electronics. The corporate name change to DPI, Inc was initiated to provide a dynamic platform for shared and leveraged services for its consumer electronics product categories while maintaining individual identities for each of its award-winning brands. Currently, DPI, Inc. is the corporate umbrella for the brands iLive, GPX, WeatherX, Crayola and GoVideo. This transition has allowed the company to offer the broadest product offering and most competitive alliances of technology in the audio and video marketplace.

DPI, Inc.'s corporate headquarters in St. Louis, Missouri houses its engineering, logistics and design groups as well as 190,000 square feet of domestic warehouse space to facilitate domestic product sourcing for its customers. DPI, Inc also has offices in Asia that provide engineering, design, logistics, quality control and global product

management services as well as customer direct import services. For more information on DPI, Inc and its products and services, visit www.dpi-global.com
