A Unified Front

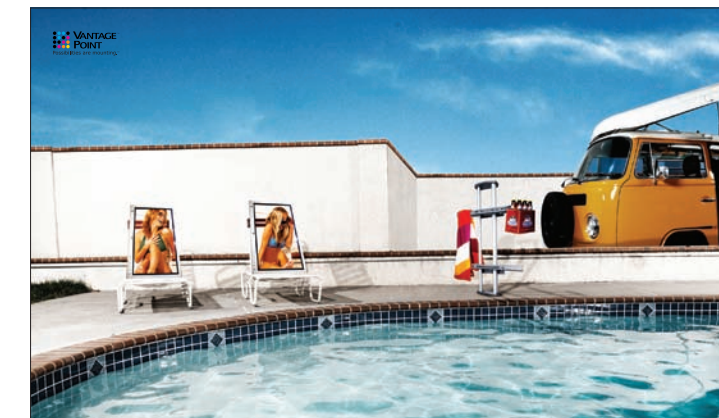

The new global packaging has consolidated all eleven Vantage Point sub-brands to create a unified image that brands Vantage Point. Clarifying and focusing the Vantage Point brand has given us the ability to create a visual language that is uniquely our own.

Speaking Global

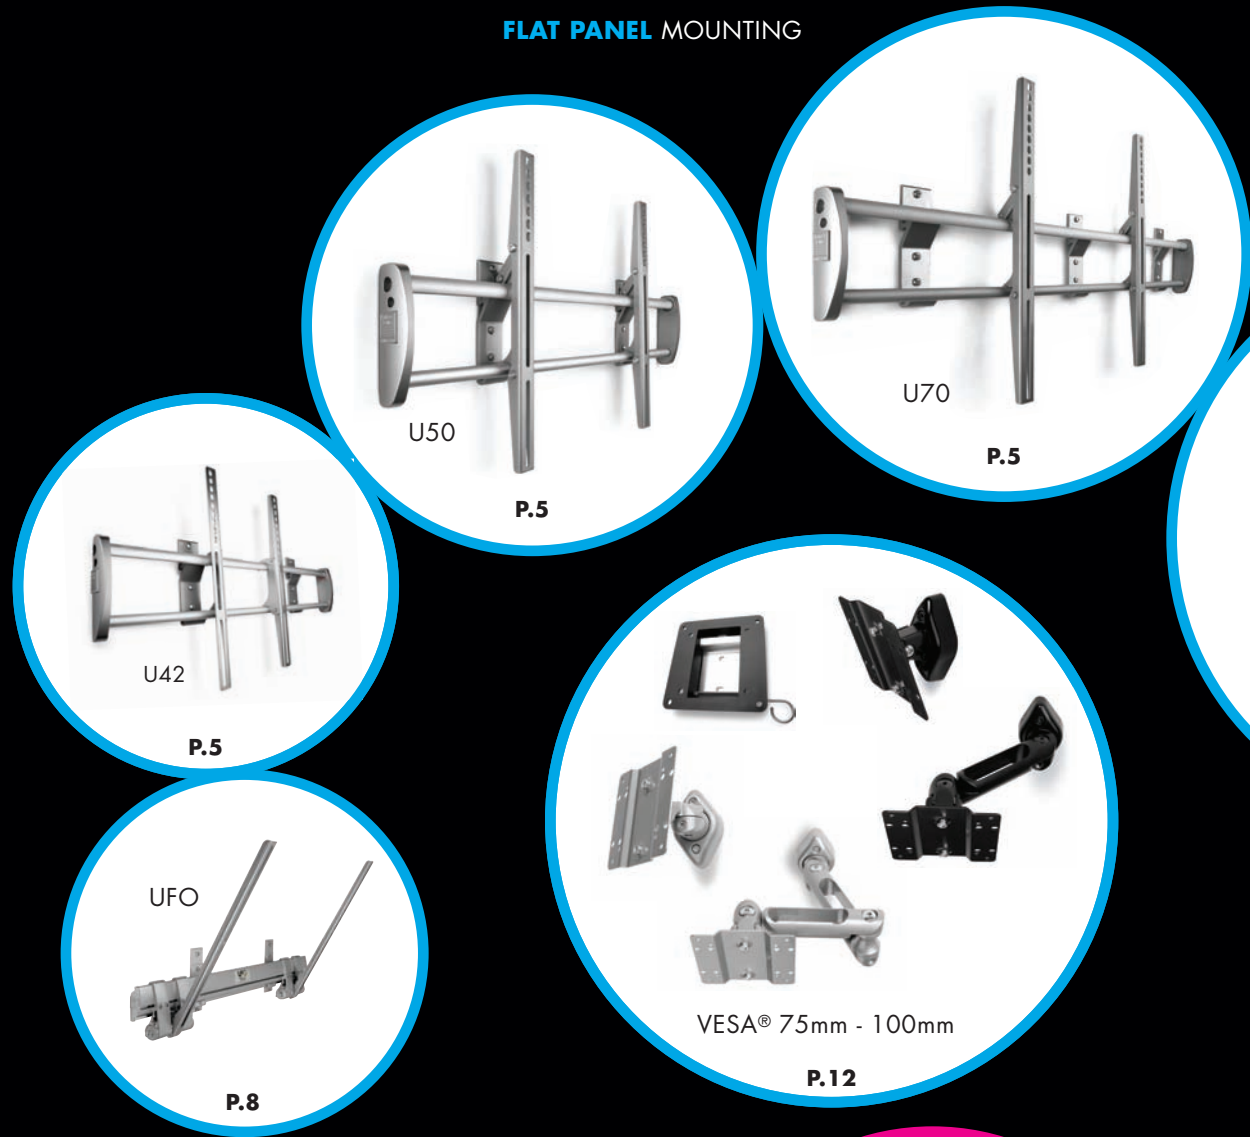

Our innovative global packaging looks simple but is intelligently complex in that it speaks four languages. The new design is a culmination of Vantage Point's expertise as an international vendor to a consumer market, hundreds of hours of in store research, and a team of designers dedicated to finding a voice that communicates the product and brand in a global market.

Designing a Unique Voice

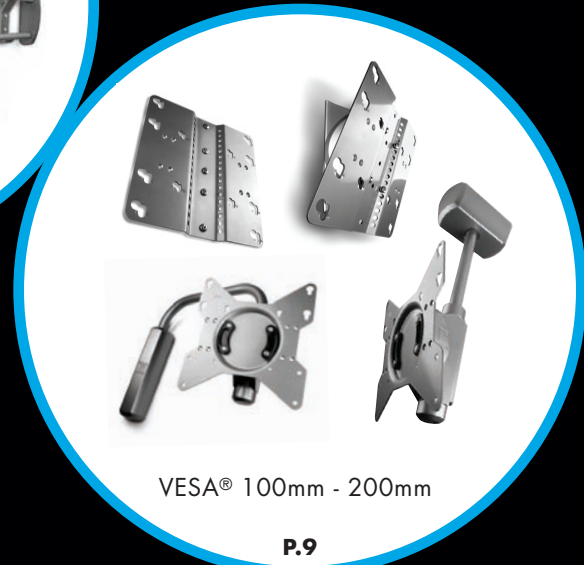

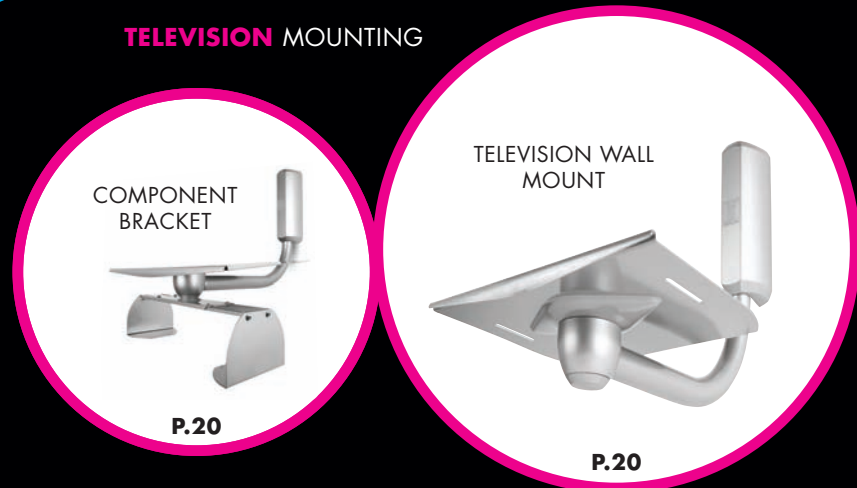

As we continue to focus and clarify the visual language that communicates Vantage Point's products and brand, we are seeing more than just individual products on a shelf. Vantage Point is becoming the voice behind a complete system of intelligently designed mounting solutions, working together to meet our customers needs in a global marketplace.

B U50 FLAT PANEL MOUNT

A U70 FLAT PANEL MOUNT

C U42 FLAT PANEL MOUNT

The U42, U50, and U70 create a new standard in fit and finish for flat panel mounting systems enhancing the on-wall viewing experience. The slim design, accompanied by the finished end caps and the use of high-tech lightweight aluminum, is both aesthetically pleasing and functionally rigid. Its open design eliminates worries of covering up wiring wall connections and provides a lightweight product that makes installation effortless. Clearly not the first flat panel mount in the market, but it could possibly be the last one you or your customer will ever use. Competitively priced, it packs the kind of valued features standard to all Vantage Points' products.

UNIVERSAL FLAT PANEL MOUNTS

UNIVERSAL LINE FEATURES

- Shallow wall profile 2.63"
- Easy Lock-In-Place feature to complete a secure installation
- Easy side-to-side monitor positioning during installation
- Sliding wall brackets accommodate any stud spacing

A U70 FLAT PANEL MOUNT

 - Supports up to 200 lbs.
 - Screen tilts upward 2° and downward 15°

C U42 FLAT PANEL MOUNT

- U42 -S, -B
MSRP: \$149.99
- Accommodates 27" - 42" plasmas
 - Supports up to 150 lbs.
 - Fixed wall positioning

UNIVERSAL FLAT PANEL MOUNTS

The UFO is designed to make installation of flat panel TV's and monitors a one person job. The lightweight aluminum rail is mounted to the wall, the brackets are mounted to the back of the monitor then the monitor simply hooks onto the horizontal rail. There is no need to pre-connect any wires since the UFO can be tilted forward far enough to enable access behind the monitor to completely detail the wiring and finalize the installation. The UFO then allows the monitor to be pushed back into the desired final position, flat or angled and secured for viewing. Truly in a class of its own; there is no substitution for the UFO.

UNIVERSAL FLAT PANEL MOUNT

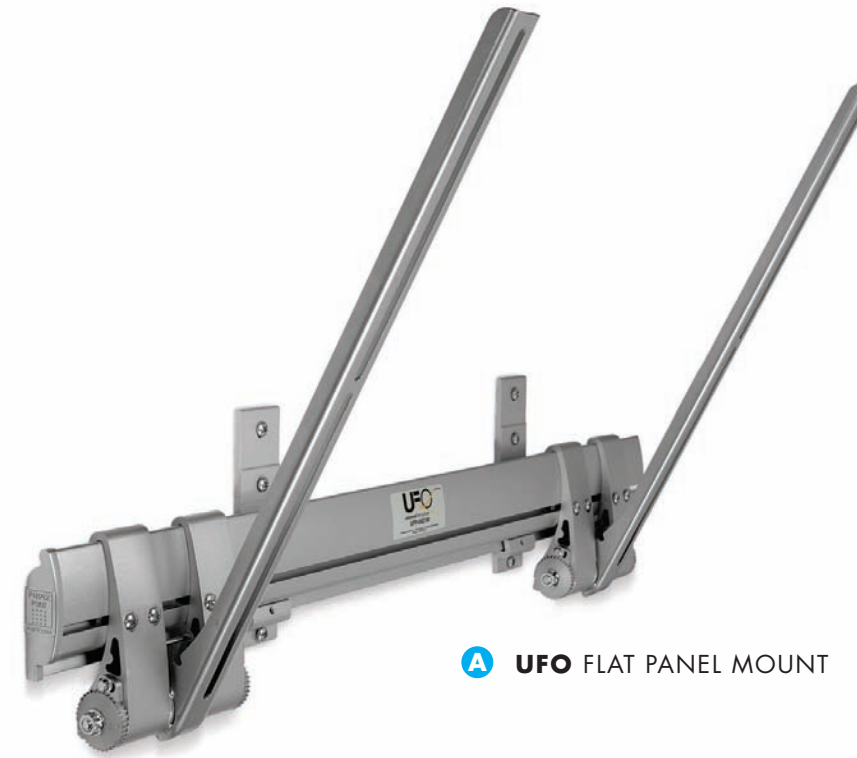

UNIVERSAL LINE FEATURES

- Fits up to 50" flat panels
- 0° to 90° flip down allows for ease of wiring
- Sliding wall brackets accommodate any stud spacing
- Easy side to side monitor positioning during simple installation
- Maximum weight load 175 lbs. 

A UFO FLAT PANEL MOUNT

CGUP01-S, -B
MSRP: \$399.99
