

HIP STREET®

Thank you for purchasing a Hip Street product and we hope you enjoy using it. Please visit our website at [www.hipstreetonline.com](http://www.hipstreetonline.com).

### **Preface**

Kindly read and retain all the operating instructions before operating the unit. We cannot assume any liability that may arise out of improper operation or incidental/accidental damages. The contents of this user manual are subject to change based on newer developments.

### **Power Supply**

1. For use with the AC power adapter, connect the DC 6V adaptor jack with the “DC 6V” hole on rear of speaker, then plug into the AC power outlet.

For use with batteries, remove the battery compartment cover on the back of the speaker, install 4 X AA size batteries (not included) into the compartment. Replace the compartment cover.

### **Speaker Operation**

1. If your audio device has a 3.5mm headphone jack on the bottom side of unit, raise the 3.5mm auxiliary input jack in the docking area to the upright position and carefully connect the audio device. For other audio devices with a 3.5mm headphone jack on the sides or top, use the built-in auxiliary input cable in the battery compartment. A cable guide slot is provided towards the upper right corner to place your cable through and replace the battery cover.
2. Slide the “OFF/ON” switch to the “ON” position to turn on the speaker.
3. Adjust the volume and enjoy your favorite music.

Note: For connection with the iPod Nano 5G, please raise the 3.5mm auxiliary input jack in the docking area to the upright position and plug in the included adapter. This will enable the 3.5mm auxiliary input jack on the included adapter to be raised to accommodate the iPod Nano 5G.
