Important Safety Information

PLEASE READ THIS ENTIRE DOCUMENT CAREFULLY, BECAUSE IT CONTAINS IMPORTANT INFORMATION ABOUT THE SAFE USE OF BLUEANT DEVICES

WARNING - PROTECT YOUR HEARING

ALL BLUEANT DEVICES ARE DESIGNED TO REACH VOLUMES OF UP TO 100 DECIBELS. PROLONGED USE OF A BLUEANT DEVICE AT HIGH VOLUMES MAY AFFECT YOUR HEARING CAPACITY. USE FOR EXTENSIVE PERIODS MAY RESULT IN NOISE INDUCED HEARING LOSS (NIHL).

- Hearing loss may occur if a headset is used at maximum volumes for more than 5 minutes per day, or at medium volumes for more than 1 hour per day.
- Exposure to sound at close range such as via an ear piece in your ear may result in hearing loss, even at low levels.

Do not listen at high volumes. Remember that your ears

will adapt to the volume level and if you change to higher levels your ear may feel no discomfort but damage to your hearing may be occurring.

BlueAnt Recommends That You:

- Set the volume control in a low position before putting the headset or headphones on your ears.
- Limit the amount of time you use headsets or headphones at high volume.
- Avoid turning up the volume to block out noisy surroundings.
- Turn the volume down if you cannot hear people speaking near you.

Should you experience any discomfort after using the product, stop using it immediately. If the problem persists seek medical assistance immediately.

CHOKING HAZARD

YOUR BLUEANT DEVICE, ITS PACKAGING, AND PACKAGE CONTENTS MAY CONTAIN PARTS THAT MAY BE A CHOKING HAZARD TO SMALL CHILDREN.

Please ensure that the device and any associated components such as cables are stored safely and that any packaging or unwanted contents are disposed of thoughtfully. Do not place the product on the floor or leave it in a place where young children could access it, or someone could trip over it.

Use Responsibly

Do not use your headphones when it is unsafe to do so.

Do not use while cycling or driving.

Care and Handling

Your BlueAnt device is a precision engineered instrument. To ensure its ongoing performance, you should look after it as you would any quality consumer electronic product, and use it in accordance with the instructions.

BlueAnt recommends that you take the following precautions.

- Avoid leaving your device in direct sunlight, such as on the dashboard or console of a car or truck. Do not leave your device unattended in your vehicle.
- Do not leave your device, or use your device, in any area where the temperature may exceed 60 degrees Centigrade (140 degrees Fahrenheit), such as inside a closed car on a hot day. Remember that on a hot day the temperature inside a closed car may be significantly higher than the outside air temperature.
- Do not leave your device, or use your device, in any area where the temperature is likely to drop below 0 degrees Centigrade (32 degrees Fahrenheit).
- Do not leave your device, or use your device, in any area exposed to humidity, dust, soot, other foreign objects, smoke, or steam as this may cause your device to malfunction.
- Do not use any household or industrial grade detergents or cleaners to clean your device. If your device becomes dirty or smeared, in most instances a wipe with a dry or slightly damp cloth should be sufficient to clean it.
- Your BlueAnt device is not waterproof and should be removed and placed in a dry area in the event of being exposed to any drizzle, rain or water.
- Should a fault develop with your BlueAnt product, contact BlueAnt for advice on how to proceed. Do not attempt to repair or alter any BlueAnt product yourself.

Approved Accessories

The use of accessories not approved by BlueAnt, including but not limited to batteries, antennas, wall adapters, car chargers, ear gels and foam tips and convertible covers, may cause your BlueAnt device to malfunction or in the case of non-approved electrical accessories may cause the device to exceed RF energy exposure guidelines.

Use of non approved accessories will void your device's warranty. For a list of approved BlueAnt accessories, visit our website at: www.blueantwireless.com
