- >> Green View screen shows the distance to front, center and back of green
- >> Green Edit function allows you to change the front, center and back distance to green
- >> Shot Distance calculator allows you to measure distance for any shot
- >> Time displayed on LCD screen
- >> Choice of 12 languages
- >> Belt Clip and Soft Storage bag included
- >> Mini USB cable included
- >> 2 Year Warranty on components
- >> Dimensions: 2.30" x 4.6" x 1"
- >> Weight: 6 oz.

GET STARTED

CHARGE YOUR COURSEPRO

- > Using the included USB cable, plug your CoursePro into an open USB port on your computer
- > Charge time is about 4 to 5 hours
- > A full charge will last 8 to 10 hours

NEW USER SETUP

- > Log onto **www.celestronGolf.com**
- > Locate and select one of the **New User** buttons

- > Download the latest software
- > Create an account and register your CoursePro
- > Choose your payment options

DOWNLOAD COURSE MAPS

- >> Log onto **www.celestronGolf.com** and select the 'Download Courses' button
- >> The Course Download window will load
- >> If you are not already signed on, you will be prompted to log in
- >> In the search window, type the name of the course you would like to download or browse through the list to find your course
- >> Once the course is located, click the course map icon for your course
- >> Depending on your payment plan and the number of courses you may have already downloaded, you may be prompted to pay for the course
- >> Follow the on screen instructions to pay for the course and verify your payment
- >> Once verified, the download will begin
- >> Once completed you will be prompted to save the course map file to a folder on your computer

ADD COURSE MAPS TO YOUR COURSEPRO

- >> Turn on your CoursePro (*remember to press and hold the ON button for at least 3 seconds*) and using the mini USB cable, connect it to your computer
- >> Open the Course Map Manager software by double clicking the icon on your desktop
- >> If your CoursePro isn't automatically recognized, click **CONNECT** [Figure 1]
- >> Once your CoursePro is recognized and syncs up with the Course Map Manager, select **ADD COURSE** [Figure 2], then **OPEN** [Figure 3]

Figure 2

Figure 3

Figure 1

- >> Browse to your saved folder and select the course map you would like to add
- >> The course map will download to your CoursePro and show up in the **MY COURSE** window in the Course Map Manager interface
- >> Repeat these steps to add more course maps

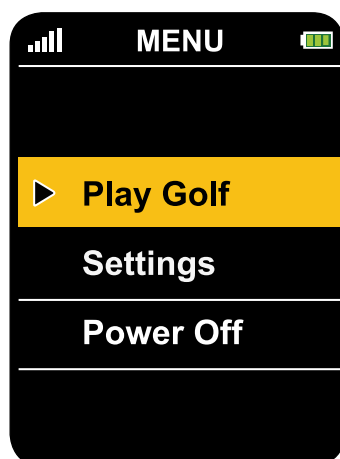

PLAY GOLF

- > **PRESS** and **HOLD** the **POWER** button for at least 3 seconds.

This screen will appear as your CoursePro attempts to link to a satellite signal.

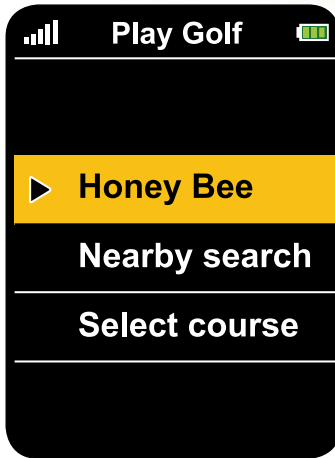

*Once the satellite signal is locked in, this menu screen will appear. **PRESS** the upper or lower point on the ring of the **5 WAY NAVIGATION** key to scroll through your choices. **PRESS** the **CENTER** button of the **5 WAY NAVIGATION** key to select the **PLAY GOLF** choice.*

*Your CoursePro will auto search for a local course for you. You can stop the auto search by pressing the **PAGE** key.*

PLAY GOLF

Once the auto search is complete, your screen will display the local course along with choices to select another nearby search or to select your course manually. To select the displayed course, **PRESS** the **CENTER** button of the **5 WAY NAVIGATION** key. **PRESS** the upper or lower point on the ring of the **5 WAY NAVIGATION** key to scroll through your choices and select your choice by again pressing the **CENTER** button.

If the course map cannot be found, this screen will be displayed, and you will be returned to the **PLAY GOLF** screen.

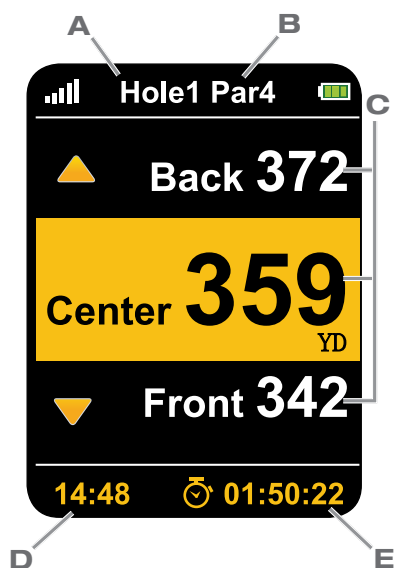

If your CoursePro has no course maps downloaded to its internal memory, this screen will be displayed. See steps above for downloading course maps and saving them to your CoursePro.

PLAY GOLF

Once you have selected the course you want to play, the **START** window will appear. **PRESS** the left and right points of the **5 WAY NAVIGATION** key to scroll to your preferred starting hole. **PRESS** the **CENTER** button to select.

The **Green View** window will appear displaying information about this hole.

GREEN VIEW INFORMATION:

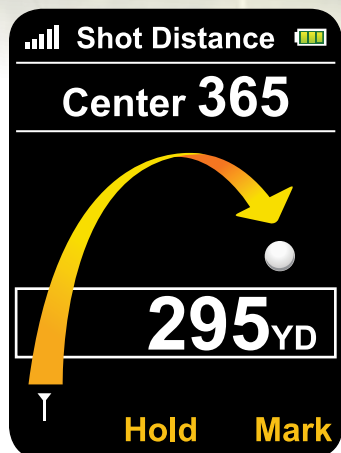

- > Hole Number [A]
- > Par for the Hole [B]
- > Distance to the back, center and front of the green [C]
- > Real time [D]
- > Your round running time [E]

You are now ready to tee off.

OTHER FEATURES

I. SHOT DISTANCE PAGE

The **Shot Distance** page allows you to measure the distance of any of your shots easily and precisely. Before teeing off or taking any shot, **PRESS** and **HOLD** the **PAGE** key until the displayed distance in the yellow band is reset to “0”. You are now ready to hit away. After hitting away, and as you move towards your ball’s new position, your CoursePro will be calculating the distance. When you arrive at your ball’s new position, look at your CoursePro screen.

The number displayed in the yellow band has now changed to represent the distance that your ball has traveled. **PRESS** the **CENTER** button of the **5 WAY NAVIGATION** key to lock this number in. This number will remain until you want to measure your shot distance again. Repeat the same steps to measure your next shot or **PRESS** the left edge of the **5 WAY NAVIGATION** key to return to the **Scorecard** page, or **PRESS** the right edge to go to the **Edit Course** page.

OTHER FEATURES

II. GREEN EDIT PAGE

The **Green Edit** feature allows you to change the distances to the front, center and back of the green for any hole. From the **Green View** page, use the left or right edge of the **5 WAY NAVIGATION** key and scroll to **Green View** edit page seen above. Choose to edit by pressing the **PAGE** key. Use the top and bottom of the **5 WAY NAVIGATION** key to select which distance you would like to edit. While standing at the position that you have chosen, i.e., front, center or back

of the green, mark that position by pressing and holding the **CENTER** button. The distance will be reset to "0". Mark the other positions, if you choose to, in the same manner. When you are completed with your editing, choose **OK** by selecting the **PAGE** key. This will bring you back to the main **Green Edit** screen. Use the keypad to get back to the **Green View** window and proceed with play.

CUSTOMIZE SETTINGS

To change the default settings, from the main screen, scroll down and select the **Settings** bar.

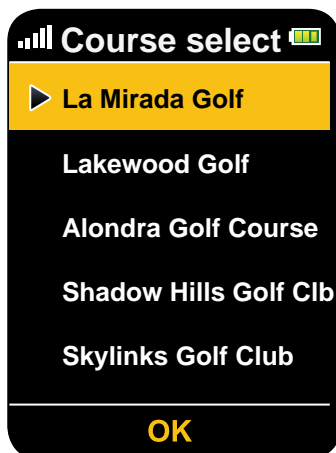

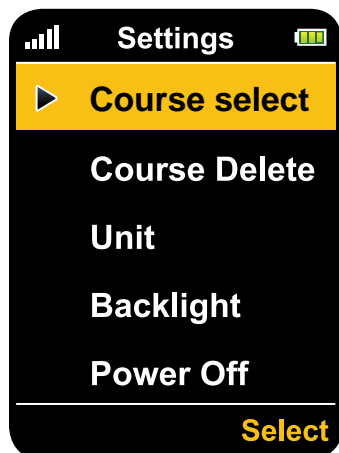

The **Settings** screen will appear.

Here you can select from the following options:

- > Select or delete a course map from CoursePro's memory
- > Change units
- > Adjust the backlight timer
- > Set power off
- > Select language
- > Set time zone
- > Reset round timer
- > Set time format
- > Receive device information

III. COURSE SELECT

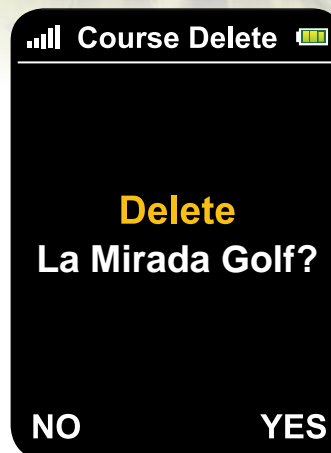

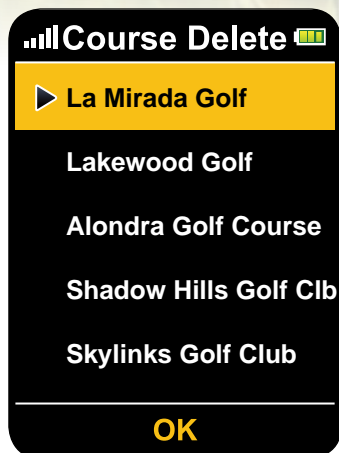

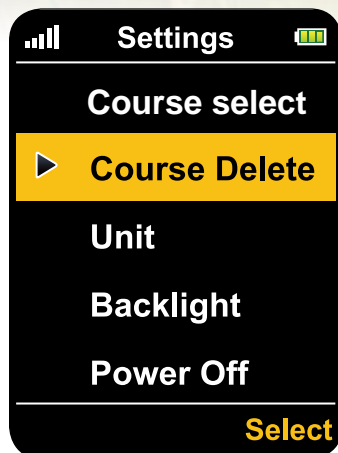

Use the **5 WAY NAVIGATION** key to select your desired course. You will automatically be brought back to the main menu page when complete.

CUSTOMIZE SETTINGS

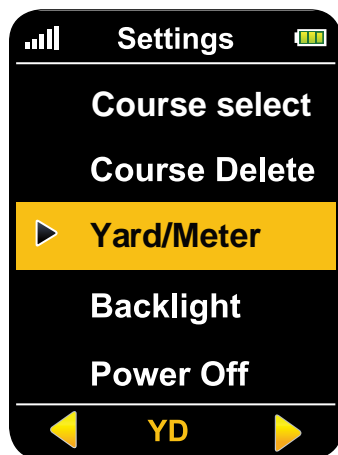

IV. COURSE DELETE

You may want to delete courses from your CoursePro's internal memory to free up space. Using the **5 WAY NAVIGATION** key, select the course you want to delete. You will be asked if you are sure you want to delete this course. Select **YES** (*Page Key*) or **NO** (*Power Key*). If you select **NO**, you will be brought back to the

previous window and prompted to choose a different course. If you select **YES**, the selected course will be deleted and you will be brought back to the **Course Delete** window where you can choose more courses to delete. When done deleting courses, **PRESS** the **START** key to return to the main menu page.

V. CHANGE YARD/METER UNITS

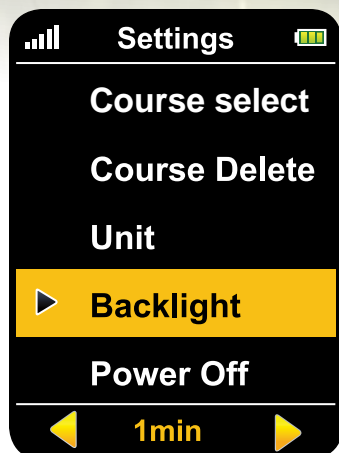

CoursePro's distance units are displayed in either Yards or Meters. The default setting is Yards (**YD**). To change to Meters (**M**), **PRESS** the left or right edge of your **5 WAY NAVIGATION** key. **PRESS** the up or down edge of your **5 WAY NAVIGATION** key to continue scrolling through the **Settings** options.

CUSTOMIZE SETTINGS

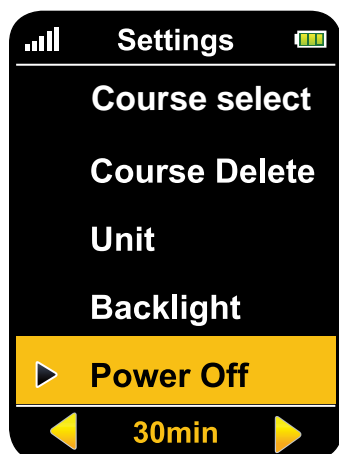

VI. ADJUST BACKLIGHT TIMER

You can adjust the time the backlight stays on to save battery power. With the **Backlight** bar highlighted, press the left or right edge of your **5 WAY NAVIGATION** key to switch the time. The default time is 3 minutes. Your choices are 1 minute, 3 minutes, 10 minutes, 30 minutes and **Backlight Always On**. **PRESS** the up or down edge of your **5 WAY NAVIGATION** key to continue scrolling through the **Settings** options.

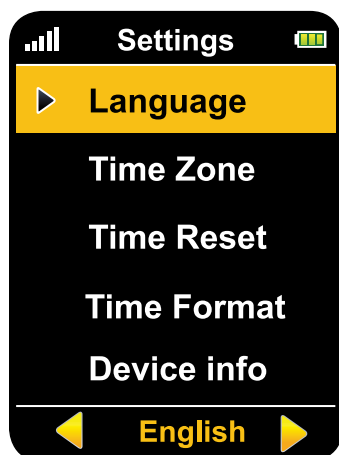

VII. AUTO POWER OFF

You can set your CoursePro to automatically shut down after a certain time of non-use. With the **Power Off** bar highlighted, press the left or right edge of your **5 WAY NAVIGATION** key to switch the time. The default setting is 30 minutes. Your choices are 30 minutes, 40 minutes, 50 minutes, 60 minutes, 70 minutes, 80 minutes, 90 minutes, 100 minutes, 110 minutes, 120 minutes and **Always On**. **PRESS** the up or down edge of your **5 WAY NAVIGATION** key to continue scrolling through the **Settings** options.

VIII. LANGUAGE

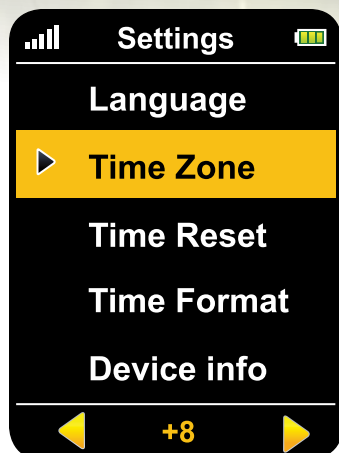

You have 12 language choices with your CoursePro. They are English (**default**), Spanish, French, German, Italian, Traditional Chinese, Simplified Chinese, Japanese, Korean, Russian, Swedish and Czech. Once the **Language** bar is highlighted, **PRESS** the left or right edge of your **5 WAY NAVIGATION** key to switch between the language choices and **PRESS** the **CENTER** button to make your selection. Once you make your selection, you will automatically be brought back to the **Settings** menu page.

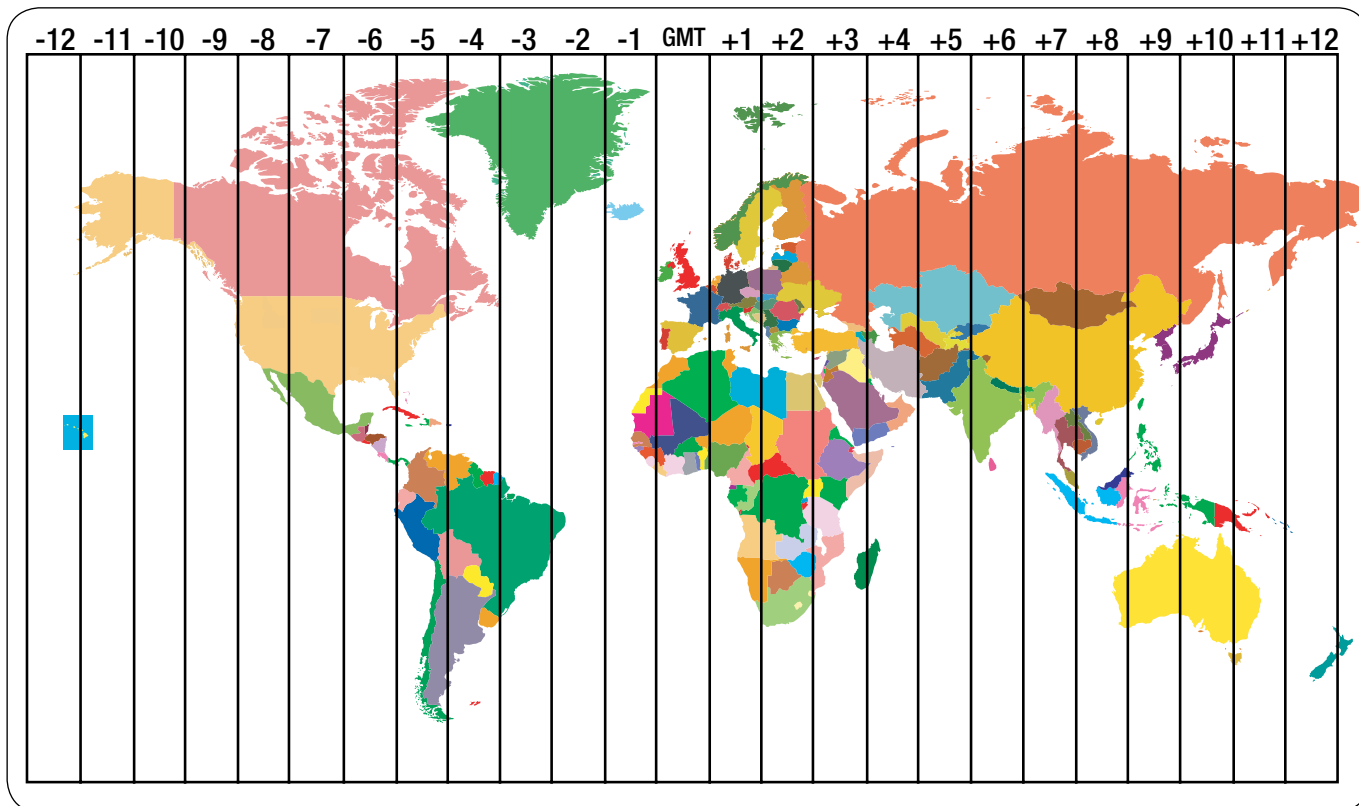

CUSTOMIZE SETTINGS

IX. TIME ZONE SET

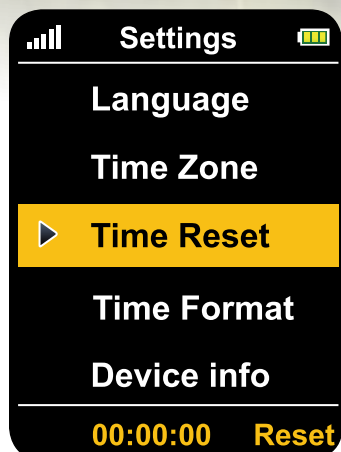

For the real time clock on your CoursePro to display accurately, you will need to set your time zone. Use the chart below to find your location and + or - zone based on GMT (Greenwich Mean Time). **PRESS** the left or right edge of your **5 WAY NAVIGATION** key to find your zone. Most countries utilize some form of Daylight Savings Time and you will need to adjust your entry to reflect this as the GMT chart does not account for this. For example, if you are in Los Angeles, CA in the summer and your time zone is “-8,” add 1 hour to the time which will give you “-7” (-8 + 1 = -7).

CUSTOMIZE SETTINGS

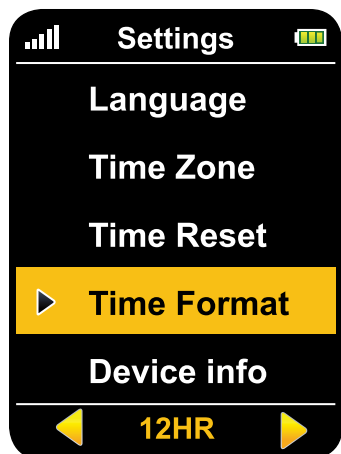

X. ROUND TIME RESET

Your CoursePro allows you to track your round time. This feature automatically starts once you select the hole you are starting from at the beginning of your round. With the **Time Reset** bar highlighted, **PRESS** the **PAGE** key and the clock will reset to 00:00:00.

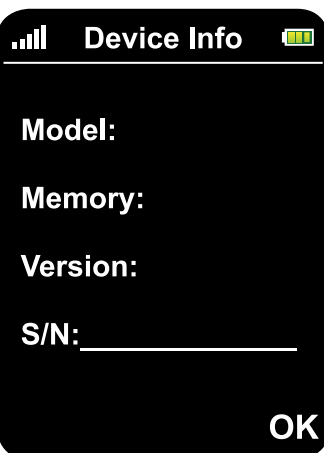

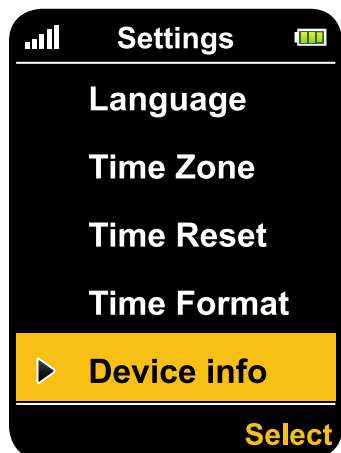

XI. TIME FORMAT

The default **Time Format** for your CoursePro is 12H. To set it to 24HR (*commonly referred to as military time*), **PRESS** the left or right edge of your **5 WAY NAVIGATION** key.

XII. DEVICE INFO

Device Info allows you to check your model number, memory info, hardware version info and serial number of your CoursePro. **PRESS** the **PAGE** key when the **Device Info** bar is highlighted. **PRESS** the **PAGE** key again to return to the **Settings** menu.

WARNINGS AND NOTICES

GPS Systems and Location

Accuracy Notice:

The Global Positioning System (GPS) is operated by the government of the United States of America, which is solely responsible for its accuracy and maintenance. The system is subject to changes which could affect the accuracy and performance of all GPS equipment. The inherent nature of the GPS system itself limits the accuracy of the distance indicated on the CoursePro display to within roughly +/- 3 to 5 meters (or yards) of the actual marked location.

Warning:

This device is intended as a supplemental handheld navigation aide only. The user assumes all responsibility associated with the use of this product. It must not be used for any purpose requiring precise measurement of location, direction, distance, velocity or typography. This device should not be used for any aircraft navigation applications.

Vehicular Use Notice:

Celestron is committed to the safe and responsible enjoyment of the outdoors. Do not use this product while driving. An accident can result in property damage, injury or death if the operator fails to practice prudent driving

practices. It is the sole responsibility of the driver of any vehicle to operate the motor vehicle in a safe manner. Information from the GPS unit can distract the operator of a motor vehicle. It is unsafe to operate the controls of the GPS unit while operating a motor vehicle. If used in a motor vehicle, it must not be used by the operator of the motor vehicle. If it is used in a motor vehicle it must be mounted in a manner such that it does not distract the operator, does not interfere with the operator's field of view, and does not block or interfere with the air bags or other safety mechanisms of the motor vehicle. Windshields and car windows with integrated metallic materials, such as defrosters or car window tinting films, can degrade the GPS reception inside a car.

Liability Notice:

In no event shall Celestron be liable for any incidental, special, indirect or consequential damages, whether resulting from the use, misuse, or inability to use this product or from defects in the product. Some states do not allow the exclusion of incidental or consequential damages, so the above limitations may not apply to you.
