1. Tablet Overview

Screen Basics

Touch Screen Basics

Tap the screen once to activate or open something.

Touch and hold to move an item by dragging.

*In many apps touch and hold can offer more options.

Zooming: Double tap quickly to zoom into a webpage, picture, or map. Some apps allow you to zoom in and out by touching the screen with two fingers, and pinching them together.

TIP: You can flick the screen with your finger to quickly scroll through a long list, such as a library of music.

Tap a specific location on the screen where you would like to enter text. The on-screen keyboard will pop up.

2. Initial Setup

Charging

Fully charge your tablet for 6 hours before the first use.

Use the included 5V wall charger.

The battery indicator will show that your device is charging.

Attention: Charging by connecting to a computer will be extremely slow. We recommend only using the included wall charger.

Turn on

To start your tablet, press and hold the power key for 2 seconds. The Ematic logo indicates that the tablet is loading.

Once the screen loads, choose your language and connect to your Wi-Fi network. You will then be prompted to sign in to your Google Account.

Setting up your Google Account

Sign in using the email address and password from your Google Account. If you don't have one yet, create one.

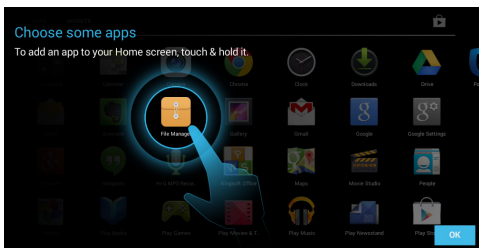

An email address that you use for any of the following counts as a Google Account:

- Gmail™
- YouTube™
- Google Apps™
- AdWords™
- Any other Google product

When you sign in with a Google Account, all your email, contacts, Calendar events, and other data associated with that account are automatically synced with your tablet. You can also add multiple Google Accounts later.

Getting Started

Once your tablet loads, you will see a Welcome Screen. Tap OK to begin using your tablet. Tap  to customize your Home Screen with apps and widgets.

3. Your Home Screen

Icons

You can fill the home screen with any combinations of shortcuts, widgets, and folders you like.

When you power up your tablet for the first time, you'll see the main home screen panel. This panel is typically centered; you can access additional panels on either side of the main one by swiping your finger left or right.

Battery Level: The white battery level indicator will decrease and change to red as the battery is drained.

Wi-Fi Signal: As the Wi-Fi signal strength decreases, the blue bands will change to grey.

All Apps: Tap to view all apps.

Back: Go back to the previous screen.

Recent apps: Open a list of recent apps. Tap an app to open or swipe left/right to remove the thumbnail.

Home: Go back to the home screen. Hold and slide up to open Google Now.

Increase Volume

Decrease Volume

Adding Icons

Within the All Apps menu, choose an app or swipe right to choose a widget. Tap and hold desired app or widget for about 2 seconds until the Home screen appears. Slide it wherever you want and let go.

Moving Icons

Touch & hold the icon.

Slide your finger to the new position.

(To move between Home screens, slide toward the edge of the screen. To bump another icon out of the way, slide slowly towards it.)

Lift your finger to drop the icon into its new position.

Removing Icons

Touch and hold the app or widget and drag to the X icon at the top left corner of the screen.

Take a Screenshot

Make sure the image you want is displayed on the screen. Press the Power Button and the Decrease Volume Icon on your screen simultaneously.

You can also tap the Screenshot icon in your Quick Settings by swiping down from the top right of your screen.

The screenshot is automatically saved to your Gallery.

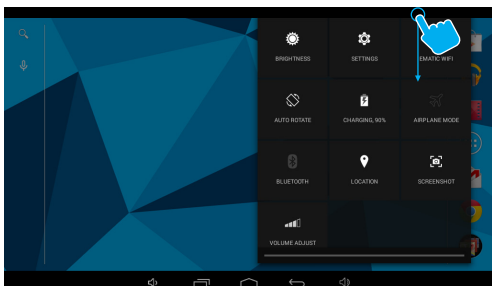

Sleep Mode

To save battery, you should put your tablet in sleep mode by turning off the LCD display. To do this, press the power key and immediately release it. Do it again to bring up the lock screen.

Quick Settings & Notifications

Swipe down from the top right of your Home Screen to view your Quick Settings.

Swipe down from the top left of your Home Screen to view your Notifications.

Change the Wallpaper

Tap and hold your finger on any open space on your home screen. A list of options appears.

Gallery: Choose a wallpaper from your personal gallery

Live Wallpapers: Choose from a scrolling list of animated wallpapers

Photos: Choose a wallpaper from your personal photos

Wallpapers: Choose from thumbnails of default images

4. Network Connection

Wi-Fi can only be used when it connects with a Wi-Fi Access Point (AP) or a free unsecured Wi-Fi hotspot.

Turn on Wi-Fi

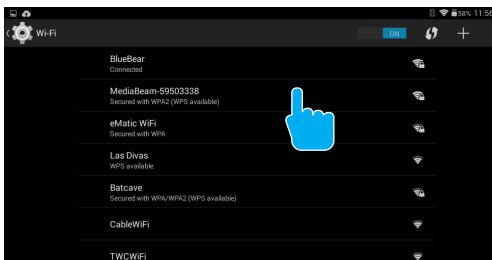

Within the All Apps menu, tap Settings.

2

Under Wireless & Networks, tap the Wi-Fi switch to turn it on and scan for networks.

Your tablet will list the networks it finds within range. Tap a network to connect.

When connected, the wireless indicator appears in the status bar. The white lines indicate connection strength. 

Turn off Wi-Fi

Tap the Wi-Fi ON switch under Wireless & Networks. Turn off Wi-Fi when you're not using it to extend the life of your battery between charges.

Adding a Wi-Fi Network

Users may also add a Wi-Fi network under Wi-Fi settings.

Forget a Wi-Fi Network

In the Wi-Fi settings screen, tap the name of the network. Tap "Forget" in the dialog that opens.

5. Connecting to a Computer

PC

The device driver will install.

Choose open folder to view files or select the removable disk.

You will now be able to drag and drop the files from your computer onto your tablet just as you would with a USB flash drive.

Mac

2. ANDROID

9. Google Now™

Google Now uses contextual data from your tablet and from other Google products to supply you with just the right information at just the right time.

You can download the Google Search app on Google Play.

After you have downloaded and installed the Google Search app, tap the  icon on the Home screen or swipe up from the  icon to open Google Now.

Google Now Cards

Google Now displays cards when they're most likely to be useful and relevant based on the current time and your current location. Find out what the weather is like, how much traffic to expect before you leave for work, or how your favorite sports team is doing.

To dismiss a card from the Google Now screen, swipe it away. The card will return the next time it's relevant, which may be hours or days from now.

You can turn Google Now cards on or off at any time. To do so from the main Google Now screen go to Menu < Settings < Google Now and choose a specific card. You can then check or uncheck when you would like that card to appear.

Location Access

Find out what the weather is like or how the commute to work will be by confirming your home and work locations.

Google Now Settings

In order to get to your Google Now settings from the Google Now Main Screen, touch the Menu icon at the bottom right of the screen. Then touch Settings. 4 types of settings will be available.

Google Now: These settings allow you to turn Google Now On or Off. It will also take you through a brief introduction to Google Now and you will be given the chance to opt in. From the settings screen you can also change the priority of cards and also sound settings for notifications.

Voice settings: Voice settings control different aspects of speech input and output.

- Language: Select a language to use for Voice Searches. The Voice Search language can be different from the language displayed by your tablet.
- Speech Output: Select Hands-free only to turn on speech output only when using a headset.
- Block offensive words: Check to ensure that search results with offensive language are blocked.
- Hotword detection: When this is checked, you can say "Google" when viewing the Google Now screen to initiate a voice search or action.

Tablet Search: Select which apps in your tablet are included in Google searches.

Privacy & Accounts: Control search-related privacy options for your Google Account.

- Manage location history: Opens Google Maps settings, where you can turn location settings and location reporting on or off.
- Location: Allows you to turn location access by all Google apps on or off.
- Show recent searches: Check if you want search suggestions based on your recent searches.
- Manage Web History: View your Web History after signing in

10. Voice Actions

After installing the Google Search app you can use Voice Actions to get directions, send messages, and perform a number of other common tasks.

To initiate a Voice Action you can:

- Tap the Microphone in the Google Search Bar on your Home Screen
- Tap the Microphone in your keyboard

Next, speak the Voice Action you want to use. Here are some typical examples:

“Set alarm for 8:30 a.m.”

“Send email to Marcus Foster. Subject: Coming tonight? Message: Hope to see you later.”

“Navigate to Mike’s Bikes in Palo Alto”

As you speak, Voice Search analyzes your speech and initiates the action. If Voice Search doesn’t understand you, it lists a set of possible meanings. Just tap the one you want.

Some Voice Actions, such as “send email” and “note to self,” open a panel that prompts you to complete the action by speaking or typing more information.

When prompted, you can:

- Touch any text already in the panel to add, or edit the text by typing. (You can tap the Microphone icon again to continue speaking instead of typing)
- Touch underlined words or phrases, drag across multiple words to view a list of alternate transcriptions, or edit by speaking or typing.
- Touch a button at the bottom of the window to add any optional fields (you can also speak the name and content of any of these fields)
- When you are done, touch the button appropriate to complete the action, such as Send.

Voice Commands

To initiate a Voice Action touch the Microphone icon

*Voice Actions will only be available after downloading the Google Search app.

Some handy voice commands are:

Say	Followed By	Examples
[Words you want to search for]		“bike shoes”
“Map of”	Address, name, business name, or other destination	“Navigate to Union Square” or “1299 Colusa Ave, Berkeley, CA”
