11. Record your favorite FM radio station or other AUX sound source to enjoy the music wherever you like.
12. Microphone input recording to act as your personal business assistant.
13. With Bluetooth function.

II. RECORDING

Recording in AUX Mode:
Connect a storage device (USB/SD card) and press Mode key to enter AUX mode. Short press Record key to start recording for a time depending on the storage capacity. During recording, the input signal should be in proper strength as you like.

Recording in FM Receiving Mode:
Connect a storage device (USB/SD card) and press Mode key to enter FM mode. Select your favorite radio station and short press record key to start recording for a time depending on the storage capacity. During recording, keep the device in a proper location where the radio signal will be received best to ensure optimized recording performance.
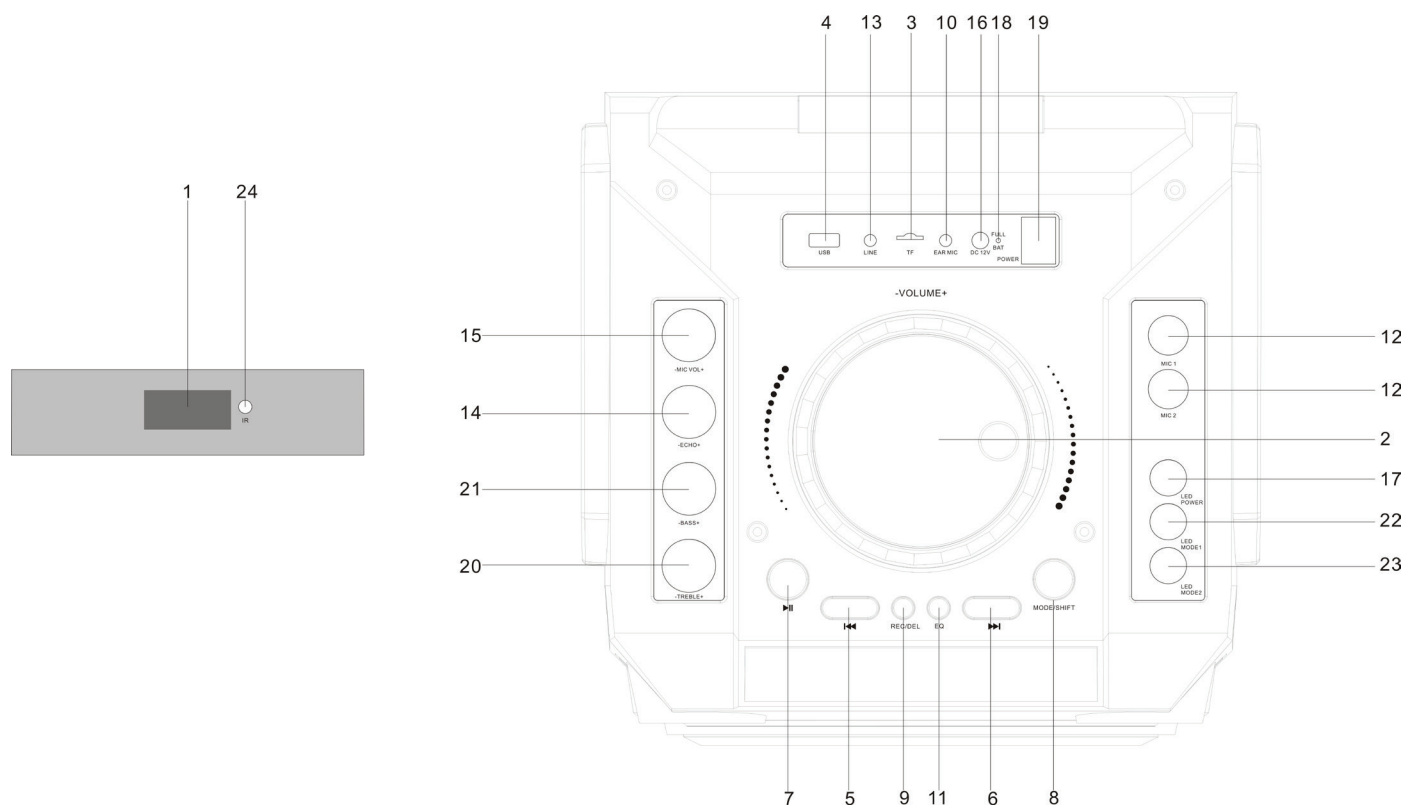

Recording via External Microphone:
Connect a storage device (USB/SD card) and short press RECORD key to start recording for a time depending on the storage capacity. During recording, turn the "-ECHO+" knob to the minimum. It is noticeable that the microphone should be located a proper distance away from the speaker to prevent any howl-round or noise.

NOTE: This product starts recording from the time as displayed on the LED screen.

III. BLUETOOTH PAIRING OPERATION:

1. ON/OFF: switch the power to ON, press the key "MODE" to enter the Bluetooth mode, the display screen will show "BLUE" indicating Bluetooth mode is active.
2. Make sure the Bluetooth function of the Mobile device is active and begin searching, when the Mobile device shows "**PyleUSA**", connect to it. Mobile device connections do not need password, however if prompted, input "0000" to go on pairing. After a successful pairing, the speaker will send out a voice of prompt indicating it has successfully been paired with the mobile device.
3. Play the music from your mobile device directly and enjoy.
