ZEBRA DOCK SCREEN BLANKING MOUNT		**Printing Spec:**PS-001

Attaching the Zebra dock screen blanking mount to the Zebra docking station:

1. Remove the new cable restraint bracket from the screen blanking assembly by removing the (2) #6-32 x 3/8" long mounting screws that hold it in place.

2. Replace the origonal cable restraint bracket on the Zebra dock with the new cable restraint bracket removed from the assembly in step 1. Attach using the (2) screws that held the origonal cable restraint on the dock.

If you need assistance or have questions, call Gamber-Johnson at 1-800-456-6868

3. Attach the accelerometer USB plug and any other peripheral cables to the docking station and cable tie in place. The USB and ethernet cables will need to cable tied in a secondary location (ie. the serial port or HDMI location) since they need to be bent and routed over to come out the opening on the bottom side.

4. Attach the screen blanking assembly to the new cable restraint bracket with the (2) #6-32 x 3/8" long mounting screws that were removed in step 1.
