MODEL NAME	901314
BLUETOOTH VERSION	4.2
BATTERY CAPACITY	7200mAh
WORKING TIME	7~8 HOURS (70% VOLUME)
CHARGING TIME	5~6 HOURS
CHARGING CURRENT	5V=1.8A
DRIVER UNIT	40W = 20Wx2
DIMENSION	280mm x 118mm x 120mm
WEIGHT	1730g±10

FREQUENTLY ASKED QUESTIONS

Q: What kind of charger should I use for the speaker?
A: All common USB chargers can be used, we recommend chargers above 5V/1.8A.

Q: What is the device priority of the speaker?
A: The speaker priority is AUX IN input, Bluetooth phone call when paired and then music over Bluetooth mode.

Q: The speaker does not turn on.
A: Plug in the charger and try to turn on the speaker after a few minutes.

Q: What if thers is a crackling or distortion of sound when in use.
A: The speaker can be used at distances up to 10m with no environmental obstruction. If used at a distance greater than 10m or with an obstruction between the connected devices there may be distortion or loss of signal.

Q: Why does the speaker shut down automatically when powered on.
A: When there is no Bluetooth device paired or if the speaker is not connected in AUX mode within 10 minutes, the speaker will shut down to reduce power consumption.

Q: The speaker cannot connect to a previously paired device.
A: On your device remove the speaker from the list of Bluetooth devices. On the speaker short press the Bluetooth Disconnect Button to restart pairing mode.

*This speaker supports mobile phones, tablets, PC, etc. Images and steps provided are based on a mobile phone experience.
