TROUBLESHOOTING:

- The earbuds will not power on

Please ensure the battery box is charged by putting one earbud into the battery box. If the charge indicator does not light up, it is an indication that the battery box needs charging before the earbuds can be used.

- The earbuds will not charge

Please try charging using a different power source or a different port on your computer

Make sure the contact on the earbuds are clean. Wipe the contacts with rubbing alcohol and dry completely when there is oxidation build up through time.

Try a different USB cable from a phone or other device.

- Unable to pair to the earbuds

Please try disabling Bluetooth on your mobile device, power off the earbuds by placing the earbuds into the battery box. Then, enable Bluetooth on your mobile device. Remove the left ear earbuds from the battery box and search and select TW7500 to pair again.

- No sound when connected

Please ensure volume is turned on for both the earbuds AND your mobile device or the running App is not set to mute.
