### Install Your Webcam

#### 1. Place Your Webcam

Place the webcam where you want it - on a computer display, desktop or a tripod.

Note: this product does not contain tripod. Please purchase if necessary.

For Placement on the Display:

Open the webcam clip, and follow the steps and methods show in the figure to place the webcam on top of the display, please make sure the clip is firmly mounted.

#### 2. Connect the Webcam

Connect the camera to the computer via the USB interface.

Tip: When using a desktop, it is better to connect the webcam to the USB interface on the back of the computer to avoid extra cables being in view.

#### 4. When installation is finished, you can start using.

### Notice

1. Do not use in overly hot, cold, dusty or humid environment.
2. Avoid touching the lens with hands, sharp or coarse material; use clean, soft cloth for cleaning.
3. Avoid dropping. Dropping webcam may cause damage, including scratches, to the lens, or cause the webcam to malfunction.

### Warranty

This product has a one year warranty for mechanical defects or issues.

Damage due to user error, misuse or dropping is not covered by warranty.
