## INSTRUCTIONS:

### 1. Setting up Enclosure and Tablet

1 - Unlock the tablet enclosure by rotating the key until it opens

2 - Find the appropriate size included foam padding for the tablet you wish to use. Be sure device is compatible for the enclosure

3 - Lay in your device and connect any power cables

4 - If needed, make sure to lay-in the correct masking cover. Then close and lock the enclosure and it's ready to go.

### 2. Installing Paragon Enclosure to VESA Magnetic Mount Base

Align the VESA holes of magnetic base and the paragon enclosure. Using the provided allen key rotate and screw in from the front while using your fingers to hold the hex nut from behind. Make sure the screw goes through the enclosure and vesa mount and rotate until tightly screwed.

Once Enclosure is attached and tablet is inside, simply place onto any magnetic surface
