- 3. Heed Warnings: All warnings on the product and in the operating in-
- structions should be adhered to.

# Warnings and Precautions

CAUTION: TO REDUCE THE RISK OF FIRE AND

BACK) OF THE UNIT. REFER SERVICING ONLY T

QUALÍFIED SERVICE PERSONNEL.

Cleaning: Unplug this product from the wall outlet before cleaning. Do not use liquid cleaners or aerosol cleaners. Use a damp cloth for Attachments: Use only attachments recommended by the manufac-

turer. Use of other attachments may be hazardous ELECTRIC SHOCK, DO NOT REMOVE THE COVER (OR Water and Moisture: Do not use this product near water (e.g., near a bathtub, washbowl, kitchen sink, laundry tub, in wet basements, or near a swimming pool and the like).

Ventilation: Slots and openings in the cabinet are provided for ventilation to ensure reliable operation of the product and to protect it from overheating. These openings should never be blocked by placing the product on a bed, sofa, rug, or other similar surface. This product should not be placed in a built-in installation such as a bookcase or rack unless proper ventilation is provided or the manufacturer instructions have been adhered to.

Follow Instructions: All operating and usage instructions should be

- 9. Power Sources: This product should be operated only from the type of power source indicated on the rating label. If you are not sure of the type of power supply to your home, consult your product dealer or local power company. For products intended to operate from battery power or other sources, refer to the operating instructions.
- 10. Grounding or Polarization: This product may be equipped with a polarized alternating-current line plug that has one blade wider than the other. This plug will only fit into the power outlet in one direction. This is a safety feature. If you are unable to insert the plug fully into the outlet, try reversing the direction of the plug. If the plug should

- still fail to fit, contact an electrician to replace the obsolete outlet. Do not defeat the safety purpose of the polarized plug. 11. Power-Cord Protection: Power supply cords should be routed so that
- they are not likely to be walked on or pinched by items placed upon or against them, paying particular attention to cords at plugs, convenience receptacles, and at the point which they exit from the product.
- 12. Protective Attachment Plug: The product may be equipped with an attachment plug with overload protection. This is a safety feature. See the operating instructions for replacement or directions to reset the protective device. If replacement of the plug is required, be sure the load protection as the original plug as specified by the manufacturer.
- 13. Lightning: For added protection for this product, unplug it from the wall outlet during a lightning storm or when it is left unattended and unused for long periods of time. This will prevent damage to the product due to lightning or power-line surges.
- 14. Overloading: Do not overload wall outlets, extension cords, or integral convenience receptacles as this can result in a risk of fire or electric shock.
- 15. Object and Liquid Entry: Never push objects of any kind into this product through openings as they may touch dangerous voltage points or hort-out parts that could result in a fire or electric shock. Never spill liquid of any kind on the product.
- 16. Servicing: Do not attempt to service this product yourself as opening or removing covers may expose you to dangerous voltage or other hazards. Refer all servicing to qualified service personnel.
- liquid has been spilled or if objects have fallen into the product; c) if

the product has been exposed to rain or water; d) if the product does not operate normally by following the operating instructions. Adjust only those controls that are covered by the operating instructions as improper adjustment of other controls may result in damage and will often require extensive work by a qualified technician to restore the product to its normal operation; e) if the product has been dropped or damaged in any way; f) when the product exhibits a distinct change in performance—this indicates a need for service.

- 18. Replacement Parts: When replacement parts are required, be sure that your service technician has used replacement parts specified by the manufacturer or have the same characteristics as the original part. Unauthorized substitutions may result in fire, electric shock, or other hazards.
- 19. Safety Check: Upon completion of any service or repairs to this product, ask the service technician to perform safety checks to ensure that the product is in proper operating condition. 20. Heat: The product should be situated away from heat sources such as
- radiators, heat registers, stoves, or other products (including ampli-

This product contains lead, a chemical known to the State of California to cause cancer and birth defects or other reproductive harm. Wash hands after handling.

This device complies with Part 15 of the FCC Rules. Operation is subject 17. Damage Requiring Service: Unplug this product from the wall outlet to the following two conditions: (1) this device may not cause harmful and refer servicing to qualified service personnel under the follow- interference, and (2) this device must accept any interference received, ing conditions: a) when the power-supply or plug is damaged; b) if including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the lim-

its for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures

humidity. This may adversely affect the internal
