

4K60Hz Quad-View HDMI Mouse Roaming KVM Processor

User Manual

04-1387A

P/N: CE-KV0J11-S1

Safety and Notice

The device has been tested for conformance to safety regulations and requirements, and has been certified for international use. However, like all electronic equipment, the device should be used with care. Please read and follow the safety instructions to protect yourself from possible injury and to minimize the risk of damage to the unit.

- Follow all instructions and warnings marked on this unit.
- Do not attempt to service this unit yourself, except where explained in this manual.
- Provide proper ventilation and air circulation and do not use near water.
- Keep objects that might damage the device and assure that the placement of this unit is on a stable surface.
- Use only the power adapter and power cords and connection cables designed for this unit.
- Do not use liquid or aerosol cleaners to clean this unit.
- Always unplug the power to the device before cleaning.

Features

- 4x HDMI inputs and 2x HDMI outputs
- Input resolutions support from 640x480 to 4k@60Hz (4:4:4 8bits), interlaced or progressive
- Output resolutions support up to 4K@60Hz 4:4:4 8bits
- Supports full screen & quad-view display
- HDCP 1.4/2.2 compliant
- Supports L/R audio extract
- Supports un-compressed 7.1ch digital HDMI
- Supports Web control, IR remote and front panel control
- Supports mouse roaming at the default Quad view mode
- Supports two USB3.0 ports to share USB devices
- Supports independent HID keyboard & mouse ports
- Supports hotkey control
- Plug and Play without any driver needed
- Firmware upgradable

Package contents

- 4K60Hz Quad-View HDMI Mouse Roaming KVM Processor
- IR remote control
- IR receive cable
- Power adapter DC 12V/3.33A
- User Manual

Layout
