ALLERGY SEASON IS BACK.

HELP PROTECT YOUR FACILITY THIS SPRING WITH LYSOL®

In many areas of the U.S., allergy season can begin as early as February and last until fall. Tree pollination begins earliest in the year, followed by grass pollination later in the spring and summer, and ragweed in the late summer and fall.¹

Pollen is one of the most common triggers of seasonal allergens, also known as seasonal allergic rhinitis,² which affect 1 in 4 adults in the U.S. according to the CDC.³
