AFS-TEX Dynamic Active Footrest

Sit without being sedentary!

The AFS-TEX Dynamic is a design based on research into the benefits of fidgeting, this active footrest is designed to be difficult! It massages, rolls and wobbles underfoot, which means you have to work to keep it under control.

This activity increases NEAT* movements that help stimulate your metabolism and burn more calories than just sitting still.

The Dynamic can help get the most out of sitting at work and leisure. It also acts as a traditional footrest to elevate the feet and rest the legs.

- Active anti-microbial ingredient protects the product from microbial deterioration.
- Non-toxic and phthalate free. • 10 Year limited warranty.

*Non-Exercise Activity Thermogenesis (NEAT) is the energy expended for everything we do that is not sleeping, eating or a sports-like exercise.
