This cable is constructed from 28 AWG wire, and is foil shielded to protect short cable runs from EMI/RFI interference. The fully molded connectors have easy-to-use extra long thumbscrews for a fast connection. Use this cable for video presentations, classroom environments or just for organizing a work area for maximum comfort and efficiency.

SVGA provides a screen resolution of 800 x 600 pixels.

Please Note: Pin 9 is not loaded. Pin 9 is not required for standard computer video applications.

Features & Benefits

SVGA resolution 800 x 600 pixels

Foil shielded to protect cable runs from EMI/RFI

Extra long thumbscrews for easy connecting
