19" Keyboard Tray/Monitor Shelf

Add a complete KVM workstation to your rack.

FEATURES

» A single multilevel shelf enables you to keep your keyboard, monitor, and mouse within a two-post 19" rack.

» Having a KVM workstation near your rackmount servers and other equipment makes troubleshooting and maintenance easier.

» Occupies 4U of rack space.

» Durable 16-gauge steel with black powder finish.

» Slide-out mouse tray is attached to the keyboard tray.

» Monitor shelf holds up to 100 pounds and is 13.3" deep.

» Keyboard tray slides out an additional 7" and holds a full-size keyboard. When you're done working, simply slide it back in under the monitor shelf.

» Cantilevered monitor shelf extends 10.5" beyond the front of the rack.

» Mounts to the front and back surfaces of both standard 3" rails in a two-post open frame rack.
