

15ft Coax High Resolution 90°; Down Angled VGA Monitor Cable - HD15 M/M

Product ID: MXT101MMHD15

This 15ft High Resolution Video VGA Cable (90 degree) is designed to provide the highest video quality possible through a VGA connection and is specifically constructed to accommodate tight installation spaces.

The high quality, shielded coax VGA cable features a 90 degree down-angled plug, which requires only 32.4mm (1.27") of space to make the video connection.

More than suitable for high-res VGA applications (1280x1024 resolution and above), the 90 degree VGA cable eliminates picture "ghosting" and fuzzy images that are common with non-coaxial cables, and provides superior EMI interference protection using ferrite cores near the connector ends.
