

Mini DisplayPort to HDMI Adapter with USB Audio

Product ID: MDP2HDMIUSBA

The MDP2HDMIUSBA Mini DisplayPort with USB Audio to HDMI Adapter offers a cost-effective HDMI with audio to Mini DisplayPort link, letting you connect an HDMI-capable HDTV to a device with a Mini DisplayPort output, while saving the expense of upgrading the TV for compatibility. The Mini DisplayPort adapter is the perfect accessory for any of your Microsoft Surface Pro devices with mDP.

Simply plug in the USB and Mini DisplayPort connectors to a PC or Mac and the HDMI connector to an HDMI television/monitor. 2-Channel analog audio will pass through to the HDMI connection, delivering sound to the display side, with the convenience of one HDMI cable.

MDP2HDMIUSBA is a passive adapter that requires a DP++ port (DisplayPort++), meaning that DVI and HDMI signals can also be passed through the port.

Compatible with Intel Thunderbolt, when connected directly to a supporting DisplayPort over Thunderbolt I/O port.

Backed by a StarTech.com 3-year warranty and free lifetime technical support.

Certifications, Reports and Compatibility

Applications

- The Mini DisplayPort to HDMI adapter allows for an easy and hassle free connection to any HDMI HDTV or display from a PC or Mac.
- Use your DisplayPort and USB port for video and audio pass-through to one HDMI cable.
- Deliver audio/video content from your PC or Mac to your A/V devices (HDTV or receiver) for a larger and louder viewing.

Features

- USB Audio pass-through to HDMI cable
- Supports HDTV resolutions up to 1080p
- Easy to use cable, no software required
- Compatible with Intel Thunderbolt
