SpaceMouse Pro

Product	SpaceMouse Pro
Document	Product Copy Master Document (PCMD)
Category	3D Mouse
Language	EN
Part-Nr.	3DX-700040
EAN / UPC	4260016340705 / 821123700406

Product Name with Tag Line

SpaceMouse Pro - The Standard for Engineering

Product Copy - Short

SpaceMouse Pro is the optimal tool for engineers, designers and architects to create 3D designs across a variety of industries. Delivering intuitive, effortless, precision 3D navigation in CAD applications, convenient and easy-to-access keyboard modifiers and exceptional ergonomic design, the SpaceMouse Pro experience cannot be reproduced with a standard mouse and keyboard.

Product Copy – Mid-Length

SpaceMouse Pro is the optimal tool for engineers, designers and architects worldwide to create 3D designs across an increasing variety of industries. Delivering intuitive, effortless, precision 3D navigation in CAD applications, the SpaceMouse Pro experience cannot be reproduced with a standard mouse and keyboard.

With 3Dconnexion's patented 6-Degrees-of-Freedom (6DoF) sensor, users can manipulate digital content and camera positions in CAD applications with ease. SpaceMouse Pro automatically recognizes your application environment and assigns appropriate commands to four convenient Intelligent Function Keys.

The deeply ergonomic design protects CAD professionals from the physical wear and fatigue experienced with a normal mouse and keyboard, with a full-size, soft-coated hand rest for natural wrist positioning and on-device keyboard modifiers reducing overall hand movement. Four QuickView Keys offer a variety of angles to detect errors before presenting projects.

3Dconnexion's powerful, yet simple 3DxWare driver software allows users to deeply customize their experience, with user-specific commands and macros creating a personalized experience for everyone.

SpaceMouse Pro - The Standard for Engineering

SpaceMouse Pro is the optimal tool for engineers, designers and architects worldwide to create 3D designs across an increasing variety of industries. Delivering intuitive, effortless, precision 3D navigation in CAD applications with advanced ergonomics for extreme comfort over long CAD sessions, the SpaceMouse Pro experience cannot be reproduced with a standard mouse and keyboard.

3D Engineering Design, evolved

3Dconnexion's patented 6-Degrees-of-Freedom (6DoF) sensor is explicitly designed to manipulate digital content and camera positions in industry-leading CAD applications. Push, pull, twist or tilt the 3Dconnexion controller cap to simply and intuitively pan, zoom and rotate your 3D drawing. This frees your other hand to simultaneously utilize a standard mouse to select, create or edit models with ease.

SpaceMouse Pro's four QuickView Keys make it easier to detect errors, explore alternatives and present your work more effectively. The rotation toggle key disables the rotation axes, providing simultaneous pan-and-zoom navigation in work modes like sketching. These features combine to create a tool optimized for high-level 3D engineering design.

Professional Performance in Your Hand

SpaceMouse Pro automatically recognizes your application environment and assigns appropriate commands to four large, soft-touch intelligent function keys, helping users work smarter, not harder. The on-screen display provides a convenient visual reminder of the commands assigned to the intelligent function keys on the computer screen, helping maintain focus.

Modify Your Specifications, in Ergonomic Comfort

SpaceMouse Pro keyboard modifiers provide easy access to Control, Shift, Alt, Esc functions, saving time by reducing hand movement to the keyboard. Every one of SpaceMouse Pro's 15 fully programmable buttons are perfectly positioned to allow effortless access to frequently used commands. This easy access to keys and functions means greater efficiency and fewer strenuous movements over long CAD sessions. The full size, soft-coated hand rest ensures the hand is naturally positioned to easily hold the 3Dconnexion controller cap.

These combined features create an experience of extreme comfort and optimized output from beginning to end.

The Cornerstone of Your 3Dconnexion Experience

With deeply and fully customizable command presets and macros, supported by our simple but powerful 3DxWare 10 driver, CAD professionals can individualize SpaceMouse Pro for peak performance. Work with efficiency, comfort and confidence using SpaceMouse Pro as the centerpiece of your CAD design workflow.

Features and Functions

- Professional 3D Navigation
- 4 Intelligent Function Keys
- Keyboard modifiers (Ctrl, Alt, Shift, Esc)
- 4 QuickView Keys
- Rotation Toggle Key
- Menu and Fit Key
- Full-size, soft-coated hand rest
- 15 total programmable keys
- On-screen display

Technical Specifications

- 3Dconnexion® Six-Degrees-of-Freedom (6DoF) sensor
- Dimensions (LxWxH): 204 x 142 x 58 mm / 8 x 5.6 x 2.3 in
- Approximate Weight: 670 g / 23,63 oz / 1.48 lbs

Supported Operating Systems

Microsoft Windows 10, Microsoft Windows 8.1, Microsoft Windows 7
macOS 10.10 or greater
Linux Red Hat Enterprise Linux Workstation 4, 5
Linux Novell SUSE Linux 9.3, 10, 11

Package Contents

SpaceMouse® Pro

Certifications and Registrations

CE, FCC (Class B), BSMI, KCC, WEEE, WHQL

Warranty

3- years limited hardware warranty
