USB 3.0 Multi Media Flash Memory Card Reader

Product ID: FCREADHCU3

The FCREADHCU3 USB 3.0 Card Reader enables easy read/write access to a variety of popular flash memory card formats/types (CompactFlash, Secure Digital, Memory Stick) in a single unit, over a high speed USB 3.0 connection.

Using a connection over USB 3.0, which is up to 10 times faster than the USB 2.0 standard, makes transferring large data files much quicker; it (USB 3.0) is still backward compatible with USB 2.0 however, ensuring compatibility with older systems.

This compact and lightweight external card reader offers a portable, convenient solution for accessing many different types of Flash Memory/Media cards and is easy to use, with no driver or software installation required.

Backed by a StarTech.com 2-year warranty and free lifetime technical support.
