CAT6EEZ

OVERVIEW

Use the EZ-RJ45 Crimp Tool (FT1100A) with EZ-RJ45[®] CAT5e and CAT6 RJ-45 Modular Plugs for an easy modular connector system. Or use the professionals' choice (EZ-RJPRO Crimp Tool, FT1150A) to crimp and trim RJ-45 and RJ-12/11 connectors in one step.

Both crimp tools work with most RJ-45 connectors (except AMP), and provide uniform crimp each time with the ratcheted straight action motion. Plus, they feature precision cast crimping dies, and a built-in wire cutter and stripper for silver satin. And the Crimp Tools are constructed of an all-steel frame with rust-resistant black oxide finish.

The EZ-RJPRO Crimp Tool (FT1150A) crimps and trims RJ-45 and RJ-12/11 connectors. It works with most RJ-11, RJ-12, and RJ-45 connectors (except AMP). It also features handles with a moulded rubber grip for extra comfort and a secure grip.

Replacement blades for both tools are available: choose the EZ-RJ45 Crimp Tool Replacement Blades (FT1101) for either the FT1100A and/or the FT1150A. If you have the EZ-PRO Crimp Tool (FT1150A), you also have the option to select the EZ-PRO Crimp Tool Replacement Blades (FT1151).

Now that you have your tools, you're ready to go to work. You'll also need modular plugs. Although the Crimp Tools work with any type (except AMP) of RJ-45 only (FT1100A) or RJ-45 and RJ-12/11 connectors (FT1150A), we also offer premium connectors in packs of 15 or 30. Select the EZ-RJ45 CAT5e Modular Plugs (CAT5EEZ-15PAK or CAT5EEZ-30PAK) or the EZ-RJ45 CAT6 Modular Plugs (CAT6EEZ-15PAK or CAT6EEZ-30PAK).

Why Buy From Black Box? Exceptional Value. Exceptional Tech Support. Period.

Recognise any of these situations?

- You wait more than 30 minutes to get through to a vendor's tech support.
- The so-called "tech" can't help you or gives you the wrong answer.
- You don't have a purchase order number and the tech refuses to help you.
- It's 9 p.m. and you need help, but your vendor's tech support line is closed.

According to a survey by Data Communications magazine, 90% of network managers surveyed say that getting the technical support they need is extremely important when choosing a vendor. But even though network managers pay anywhere from 10 to 20% of their overall purchase price for a basic service and support contract, the technical support and service they receive falls far short of their expectations—and certainly isn't worth what they paid.

At Black Box, we guarantee the best value and the best support. You can even consult our Technical Support Experts before you buy if you need help selecting just the right component for your application.

Don't waste time and money—call Black Box today.
