Specifications

QUANTITY: _____ **SIZE:** _____ h. x _____ w. Projection screens, recessed ceiling mounted.

HOUSING: Case back, top, and front constructed of steel. Endcaps are steel. Bottom panel forms slot for passage of viewing surface, easily removable for access. Symmetrical housing to allow for left or right-hand motor location, and for viewing surface to unroll from the back or front of the roller. Case to include bottom flange for trim around edges of ceiling opening.

ROLLER/FABRIC ASSEMBLY: May be installed in case at factory or job site. Brackets supporting roller/fabric assembly to slide in track inside top of case, allowing viewing surface to be centered in case regardless of screen size. Roller of 3" (76 mm) dia. steel.

VIEWING SURFACE: Top of HDTV and 16:10 format viewing surfaces through 110" (2.8 m) diagonal masked by 12" (30 cm) black drop. Viewing surface flame and mildew resistant. Matt White XT1000E and Contrast Grey XH800E viewing surfaces are certified to GREENGUARD standards for low chemical emissions into indoor air during product usage. For more information, visit ul.com/gg.

MOTOR: Electrically operated 110-120V AC, 60 Hz. 4-wire motor mounted inside screen roller, max 1.1 amp current draw, instantly reversible, lifetime lubricated, with internal thermal overload protector and electric brake, standard motor with preset accessible switches. Optional quiet motor operates at 44 Db (motor noise is approximately 30% less than standard tubular motors). Housing to feature internal junction box, allowing it to be installed and wired to building supply wires at an early stage of construction. Junction box to have plug-in style connector, accepting the mating half of the connector from the motorized roller/fabric assembly.

CONTROLS: 3-position control switch (or switches—specify number) to stop or reverse screen at any point. Switch(es) furnished with cover plate.

MOUNTING METHODS: Case may be mounted with a 3/8" (9.5 mm) threaded rod, lag screws, or with wire in a grid ceiling.

MOUNTING BRACKETS: Slide in 18" (457 mm) long channels on top of case, allowing brackets to be moved to avoid interference with conflicting building structures. Brackets must be locked in position by tightening screws. Brackets may also be angled to meet installation requirements.

PLENUM RATED CASE (UL approved "Suitable for Use in Environmental Air Space").

SPECIFICATIONS SUBJECT TO CHANGE WITHOUT NOTICE.

DOWNLOADABLE 3-PART SPECIFICATIONS: available at www.draperinc.com

Please note: Dimensions of rollers, operators, and hardware at manufacturer's discretion.

Select Shipping Option

Please note: When ordering a motor with internal low-voltage controller, if case ships separately from "guts," case includes 25' (7.6 m) cable and special low-voltage switch

- ☐ Case Now, Screen Assembly Later
- ☐ Complete Unit Now

Select Case Color

- ☐ White (standard)
- ☐ Black (optional)

Select Motor Location

- ☐ Left end (standard)
- ☐ Right end

Optional Accessories

- ☐ Additional set of mounting brackets for alternate mounting (see page 3)
- ☐ Extra Drop:
 - ☐ Black (standard)
 - ☐ Same color as viewing surface
 - ☐ Length of Total Drop: _____ (Total screen height cannot exceed 12')
- ☐ Black Masking Borders (Optional on AV format, standard on all others)

Select Viewing Surface:

OptiView (Self-Supporting Screen Surface)

- ☐ Matt White XT1000E (1.0 gain)
- ☐ Contrast Grey XH800E (0.8 gain)

ClearSound (Acoustically Transparent)

- ☐ ClearSound White Weave XT900E (0.9 gain)

Chroma Key (used for video production and recording)

- ☐ Chroma Key Green

See Pages 2 & 3 for Motor and Control Options, as well as Standard Dimensions and Data

Select Motor and Controls

Standard Voltage Motor and Control Options:

- ☐ 110-120V AC (standard)
- ☐ Optional Quiet Motor

Quiet Motor Size Limitations			
16:10	HDTV	NTSC	AV
165"	161"	180"	108" x 144"

Please Note: These motors come with one 110V-120V AC 3-position wall switch (silver wall plate with black rocker).

High-Voltage Switch Options

- ☐ Substitute white switch(es) for silver wall plate with black rocker
 - ☐ Optional Key Operated Switch
 - ☐ Power Supply Key Switch (On-off) (KS-1)
 - ☐ 3-Position Key Control (KS-3)

Low-Voltage Motor and Control Options:

- ☐ Internal LVC-IV (Low-Voltage Control Module)
- ☐ External LVC-IV (Low-Voltage Control Module)

Select Control Options for Low-Voltage from below:

- ☐ 24 Volt 3-Button Switch (Number of 24V switches: _____)
- ☐ Radio Frequency Remote Control (only with 24V)
- ☐ Infrared Remote Control (only with 24V)
- ☐ Optional Key Operated Switch
 - ☐ 3-Position Switch with Hinged Key-Locking Coverplate (SP-KPS-1)
 - ☐ 3-position Key Control (SP-KSM)

Case Dimensions and Methods of Installation

*L = Varies

- For minimum length of ceiling cutout: subtract 1 1/4" (32mm) from case length (measured from outer edge of flanges).
- For minimum width of cutout (front to back): see case width dimensions below.
- **Leveling bracket is used to level the case and should NOT be used to support the weight of the unit.
- The leveling bracket is screwed to the side of the case and remains stationary. Hardware used for leveling provided by others.
- There are several knock-outs in the screen housing to allow the Leveling Bracket to be adjusted laterally up to 16" (40.6cm) in either direction.

Standard Motor Wiring is on the
AUDIENCE LEFT END of Screen Case.

Mounting Brackets

With typical installation, brackets may be angled to meet installation requirements.

Additional set of brackets required, but **NOT** included.

Please Note: Extra brackets must be ordered for alternate installation.

Wiring Diagrams

For more information and wiring diagrams for serial and network communication, please see wiring diagrams supplied with individual items.
