## Secure Locking Pin for 3-Series Patch Cables

# Secures critical network ports on your 3-Series lockable patch cables.

Insert the optional Locking Pin into the patented locking boot to secure ports.

## Overview

Unlike traditional patch cables, GigaBase 3 CAT5e, GigaTrue 3 CAT6, and CAT6A Patch Cables can provide a level of security directly at the port.

Use for high vibration areas, financial and data center applications, government, military, and industrial applications.

What's Included: (1) 10-Pack or 25-Pack Locking Pins
